

Schroders

Schroder International Selection Fund Global Corporate Bond

A Accumulation USD | Data as at 31.12.2022

Important Information

The fund invests primarily in fixed and floating rate securities.

- The fund invests in debt securities which may be subject to interest rate, credit and counterparty risks and risk relating to below investment grade and unrated debt securities, etc.

- Investment in sovereign debt obligations which may expose the fund to political, social and economic risks. The fund may suffer significant losses upon defaults by government entities.

- Debt instruments with loss-absorption features may be subject to greater risks of being partly or wholly written off or converted into the issuer's equity upon the occurrence of a predefined trigger event (e.g. when the issuer, or the resolution entity if the issuer is not a resolution entity, is near or at the point of non-viability; or when the issuer's capital ratio falls to a specified level).

- The fund may use derivatives to meet its investment objective. Derivatives exposure may involve higher credit risk and counterparty, liquidity, and valuation risks. In adverse situations, the fund may suffer significant losses from their derivative usage for hedging.

- The fund may use derivatives to meet its investment objective. Derivatives exposure may involve higher counterparty, liquidity and valuation risks. In adverse situations, the fund may suffer significant losses from their derivative usage for hedging.

- For share classes with a general dividend policy, expenses will be paid out of capital rather than out of gross income. The amount of distributable income therefore increases and the amount so increased may be considered to be dividend paid out of capital. Share classes with a fixed dividend policy may pay out both income and capital in distributions. Where distributions are paid out of capital, this amounts to a return or withdrawal of part of your original investment or capital gains attributable to that and may result in an immediate decrease in the net asset value of shares.

You should not make any investment decision solely based on this document. Please read the relevant offering document carefully for further fund details including risk factors.

Investment Objectives

The Fund aims to provide income and capital growth in excess of the Bloomberg Barclays Global Aggregate –Corporate index hedged to USD after fees have been deducted over a three to five year period by investing in fixed and floating rate securities issued by companies worldwide.

Performance over 5 years (%)

Source: Morningstar, NAV to NAV, net income reinvested, net of fees, based on Schroder International Selection Fund Global Corporate Bond A Accumulation USD Units, USD. The benchmark has been changed from Bloomberg Barclays Global Aggregate Credit Component USD Hedged to BBBgBarc Global Agg Corp TR Hdg USD on 01.01.2019. The full track record of the previous indices has been kept and chain linked to the new one. Some performance differences between the fund and the benchmark may arise as the benchmark returns are not adjusted for non-dealing days of the fund. Schroder International Selection Fund is referred to as Schroder ISF. Effective 02.01.2013, the investment objective is changed (previous objective: To provide a return of capital growth and income primarily through investment in a portfolio of bonds and other fixed and floating rate securities denominated in various currencies and issued by governments, government agencies, supra-national and corporate issuers worldwide. A maximum of 20% of the net assets of the Fund will be held in securities issued by governments. As part of its primary objective, the Fund also has the flexibility to implement long and short active currency positions either via currency forwards or via the above instruments.) The Fund size quoted includes all classes of the Fund. Investment involves risks. Price of units may go down as well as up. Past performance is not indicative of future performance. Please refer to the relevant offering documents for fund details including risk factors. This material is issued by Schroder Investment Management (Hong Kong) Limited and has not been reviewed by the SFC. Performance is calculated from the share class's since launch date (17.01.2000). The names of the target and comparator(s) benchmarks may be displayed in abbreviation format, please refer to the Benchmark and corporate action information section for the full benchmark names.

Schroder International Selection Fund Global Corporate Bond

A Accumulation USD | Data as at 31.12.2022

Return of USD 10,000

Past Performance is not a guide to future performance and may not be repeated.

The value of investments and the income from them may go down as well as up and investors may not get back the amounts originally invested. Exchange rate changes may cause the value of any overseas investments to rise or fall. Performance data does not take into account any commissions and costs, if any, charged when units or shares of any fund, as applicable, are issued and redeemed.

The chart is for illustrative purposes only and does not reflect an actual return on any investment.

Returns are calculated NAV to NAV (which means performance does not include the effect of any initial charges), net income reinvested, net of fees.

重要事項

基金主要投資於定息及浮息證券。

- 基金投資於債務證券或承受利率、信貸及對手方風險及低於投資級別和未獲評級的債務證券風險等等。
 - 基金投資於主權債務可能承受政治、社會及經濟風險。當政府機構對其主權債務違約，基金可能在該等事件中蒙受重大損失。
 - 具虧損吸收特性的債務工具會因為發生預先定義的觸發事件(例如當發行人或議決實體(如發行人並非議決實體)接近或達到不可行的情況時，或當發行人的資本比率跌至指定水平時)而被部分或全部沖銷或轉換為發行人的股票，從而承受大於傳統債務工具的風險。
 - 基金可投資於衍生工具以達致投資目標。運用衍生工具可涉及較高的對手方、流通性及估值的風險。在不利的情况下，基金可能會因為使用衍生工具作對沖之用而承受重大虧損。
 - 一般股息政策的股份類別，支出將從資本而非總收入中支付，可分派收入因此增加，而增加的部份可被視為從資本中支付的股息。定息政策的股份類別，其股息可能同時由收入及資本中支付。從資本中支付的派息相當於從閣下原本投資的金額中，或從該等金額賺取的資本收益中退回或提取部份款項，可能導致每股資產淨值即時下跌。
- 閣下不應僅倚賴本文件而作出任何投資決定。請詳閱有關銷售文件以得悉基金之詳情包括風險因素。

投資目標

本基金旨在通過投資於全球各地公司發行的定息及浮息證券，在三年至五年期內扣除費用後提供超過Bloomberg Barclays Global Aggregate – Corporate index hedged to USD 的收益和資本增值。

股份類別表現 (累計)

表現 (%)	1個月	3個月	6個月	年初至今	1年	3年	5年	10年
