# JPMorgan Funds - Asia Pacific Income Fund

- The Fund invests primarily in income generating securities of countries in the Asia Pacific region (excluding Japan), and may invest a significant proportion of its assets in below investment grade and unrated debt securities.
- The Fund is therefore exposed to risks related to emerging markets, concentration, debt securities (including below investment grade/unrated investment, investment grade bond, credit, interest rate, valuation), equity, smaller companies, convertibles, currency, risk associated with high volatility and regulatory policies of certain equity markets in the Asia Pacific region, derivative, hedging, class currency, liquidity and REITs. Pertaining to investments in below investment grade or unrated debt securities, these securities may be subject to higher liquidity risks and credit risks compared with investment grade bonds, with an increased risk of loss of investment. For currency hedged share classes, the currency hedging process may not give a precise hedge and there is no guarantee that the hedging will be totally successful. For "irc" share classes, they may have greater **capital erosion**, and their NAV may fluctuate more and be significantly different from the other share classes. Investment in RMB hedged share class is subject to risks associated with the RMB currency and currency hedged share classes risks. RMB is currently not freely convertible and RMB convertibility from offshore RMB (CNH) to onshore RMB (CNY) is a managed currency process subject to foreign exchange control policies of and restrictions imposed by the Chinese government. There can be no assurance that RMB will not be subject to devaluation at some point.
- The Fund may at its discretion pay dividends out of capital, giving priority to dividends rather than capital growth. The Fund may also at its discretion pay dividends out of gross income while charging all or part of the Fund's fees and expenses to the capital of the Fund, resulting in an increase in distributable amount for the payment of dividends and therefore, effectively paying dividends out of realised, unrealised capital gains or capital. Investors should note that, share classes of the Fund which pay dividends may distribute not only investment income, but also realised and unrealised capital gains or capital. Payment of dividends out of capital amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment. Any dividend payments, irrespective of whether such payment is made up or effectively made up out of income, realised and unrealised capital gains or capital, may result in an immediate reduction of the net asset value per share. Also, a positive distribution yield does not imply a positive return on the total investment.
- Investors may be subject to substantial losses.
- Investors should not solely rely on this document to make any investment decision.

#Effective 14.06.12, JPMorgan Funds – Asia Pacific Income Fund was restructured. Key changes include fund name, investment objectives, investment universe, benchmark and distribution yield. Performance prior to 14.06.12 was achieved under circumstances that no longer apply. Please refer to the offering document for details. 1)50% MSCI AC Asia Pacific ex Japan Net (dividends reinvested after deduction of withholding tax) + 50% J.P. Morgan Asia Credit Total. This benchmark is customised by J.P. Morgan Asset Management and replaced the previous 50% J.P. Morgan Asia Credit Total + 50% MSCI AC Pacific Net on 14.06.12. Index weights are rebalanced monthly. 2)Annualised yield =  $\frac{1 + \text{distribution per unit/ex-dividend NAV} \times \text{distribution frequency}}{1}$ . The annualised dividend yield is calculated based on the latest dividend distribution with dividend reinvested, and may be higher or lower than the actual annual dividend yield. Positive distribution yield does not imply positive return. 3)With the exception of the "Average annual return" figure, all data are calculated from the month end after inception. 4)Investments in, or exposure to, any single entity (other than Government and other public securities) cannot exceed 10% of the Fund's total net asset value. 5)Issued by AsianInvestor, 2022 award, reflecting performance as at the previous calendar year end. 6)Issued by Bloomberg Businessweek/Chinese Edition, based on performance as at 30 September 2022. 7)Issued by Bloomberg Businessweek/Chinese Edition, based on performance as at 30 September 2022.
