### **GENERAL INFORMATION**

The following information is derived from and should be read in conjunction with the full text and definitions section of the prospectus.

The Principal Global Investors Funds ("the Trust") was constituted on 13 October 1992 as an open-ended umbrella Unit Trust established as an Undertaking for Collective Investment in Transferable Securities ("UCITS") under the laws of Ireland. The Unit Trust has created a number of sub-funds (the "Funds"). Units of certain classes of the Trust are listed on Euronext Dublin (formerly the Irish Stock Exchange). The Trust has been authorised in Ireland pursuant to the European Communities (Undertakings for Collective Investments in Transferable Securities) Regulations, 2011, (as amended) and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) (Amendment) Regulations 2019 (the "Central Bank UCITS Regulations").

Units are unhedged, except where otherwise noted.

For the period to 31 March 2022, the Trust comprised of the following Funds:

# **GENERAL INFORMATION (continued)**

Principal Global Investors (Ireland) Limited (the "Manager") may, with the prior consent of the Central Bank and approval of The Bank of New York Mellon SA/NV, Dublin Branch (the "Depositary") and the Board of Directors of the Manager (the "Directors"), add additional Funds.

The financial statements are published on the www.principalglobal.com website. The Directors, together with the Manager and Principal Global Investors, LLC (the "Investment Adviser") are responsible for the maintenance and integrity of the financial information included on this website.

### **PRICES**

There will be a single price for buying, selling and switching units in each of the Funds. This will be represented by the Net Asset Value ("NAV") per Unit (less/plus duties and charges where applicable).

### **DEALING**

The dealing deadline (being the time by which subscription and redemption requests for units must be received in Dublin in order for such requests to be dealt with in normal circumstances on a particular dealing day) is 10.00 a.m. (Irish time) on that dealing day. The dealing deadline for requests from Hong Kong investors is 5.00 p.m. (Hong Kong time) on that dealing day. All dealing requests should be addressed to:

### **DISTRIBUTIONS AND DISTRIBUTOR STATUS**

The Trust Deed provides for the Manager to decide to make, and for the Trustee on each distribution date to make, distributions among holders of income units and income plus units in each of the Funds. It is the intention of the Manager to make distributions to the extent that they are covered by income received from underlying investments. It is also the intention of the Manager that distributions will be declared on 30 September each year or nearest business day for all Income Unit Classes and Income Plus Unit Classes where possible. Annual distributions will be payable in respect of the A Income Unit Class on the Global Responsible Equity Fund, the A Income Unit Class on the European Equity Fund, the A. A2, D. I, I2 and N Income Unit Classes on the Global Properties Securities Fund, the D and N Income Unit Classes on the U.S. Blue Chip Equity Fund and the I Income Unit Class on the China Opportunities Equity Fund. Quarterly distributions will be payable in respect of the A, I, D, F, N, P and X Income Unit Classes on the Preferred Securities Fund, the A, I, D and N Income Unit Classes on the Global High Yield Fund, the A2 and I (Quarterly) Income Units and A2 Income Plus (Quarterly) Unit Classes of the Global Property Securities Fund, the A, A2 and I Income Unit Classes on the Post Short Duration High Yield Fund, the A, A2, I, I2, I3, D, F, N Income Unit, A2 and P2 Income Plus Unit Classes on the Finisterre Unconstrained Emerging Markets Fixed Income Fund, the A2 and I2 income Unit Classes on the Asian High Yield Fund, the I2 Income Unit Class on the Finisterre VAG Unconstrained EM Fixed Income Fund, the N Income Unit Class on the Finisterre Emerging Markets Debt Euro Income Fund and the A Income Unit Class on the China Opportunities Equity Fund. Monthly distributions will be payable in respect of the D2 Income Unit and D2 Income Plus Unit Classes on the Preferred Securities Fund, the D2 Income Plus Unit Class on the Global High Yield Fund, the D2 Income Unit Class on the Global Property Securities Fund, the D2 Income Unit and D2 Income Plus Unit Classes on the Post Short Duration High Yield Fund, the D Income Unit and D Income Plus Unit Classes on the Global Diversified Income Fund, the D2 Income Unit and the D2 Income Plus Unit Classes on the Asian High Yield Fund. There are no D2 Income Unit Classes in issue currently on the Finisterre Unconstrained Emerging Markets Fixed Income Fund. Monthly distributions will also be payable

# **GENERAL INFORMATION (continued)**

# **DISTRIBUTIONS AND DISTRIBUTOR STATUS (continued)**

in respect of the N2 Income Unit Class on the Preferred Securities Fund. There are no N2 Income Unit Classes in issue currently on the Preferred Securities Fund. There were distributions out of capital of \$451,881 (2021: \$317,410).

Upon the expiry of the period of six years after the relevant Distribution Date, the Holder and any person claiming through, under or in trust for him shall forfeit any right to any distribution not paid, and such amount shall become part of the relevant Fund.

### **CORPORATE GOVERNANCE**

The Board of Directors has adopted and applied standards of corporate governance that are consistent with the Irish Funds Code for the period ended 31 March 2022.

### **CONNECTED PERSONS**

The Central Bank of Ireland ("CBI") UCITS Regulations, Section 43(1), Restrictions on transactions with connected persons - requires that any transaction carried out with a UCITS by a distributor, manager, trustee, administrator, depositary, investment adviser, sub-adviser and/or associated or group companies of these ("connected persons") must be carried out as if negotiated at arm's length. Transactions must be in the best interests of the Unitholders of the UCITS.

Having regard to confirmations from the Manager's Designated Person for Capital and Financial Management and the Trustee, the Board of Directors of the Manager is satisfied that there are arrangements (evidenced by written procedures) in place to ensure that the obligations set out in Regulation 43(1) of the Central Bank UCITS Regulations are applied to all transactions with connected persons, and is satisfied that transactions with connected persons entered into during the period complied with these obligations.

None of the Directors had any interests in the units of the funds for the period from 1 October 2021 to 31 March 2022.

### SIGNIFICANT EVENTS DURING THE PERIOD

### Launches during the period:

### **Fund**

 Global Sustainable Listed Infrastructure Fund launched on 15 November 2021 as a Sustainable Investment Fund under SFDR.

### **Share Class**

- Asian High Yield Fund I2 Class Accumulation and I2 Class Income on 6 October 2021.
- U.S Blue Chip Equity Fund N Class Accumulation (GBP) 22 on October 2021.
- Asian High Yield Fund A Class Accumulation and A2 Class Incomes on 27 October 2021.
- Global Sustainable Listed Infrastructure Fund I Class Accumulation, I Class Income, N Class Accumulation, I Class Accumulation (EUR hedged) and I Class Accumulation (CHF Hedged) on 15 November 2021.
- Global Property Securities Fund A2 Class Income Plus (Quarterly) on 26 November 2021.
- U.S Blue Chip Equity Fund I2 Class Accumulation and I2 Class Income on 6 December 2021.
- Global Property Securities Fund A2 Class Income Plus (Quarterly) (AUD hedged), A2 Class Income Plus (Quarterly) (EUR hedged), A2 Class Income Plus (Quarterly) (SGD hedged) and A2 Class Income Plus (Quarterly) (HKD) on 16 December 2021.
- European Equity Fund I Class Accumulation (SGD hedged) on 28 February 2022.

### Closures during the period:

### **Share Class**

• Global Property Securities Fund I Class Income on 13 October 2021.

### **Prospectus & Supplement changes**

- New supplement was issued for the Global Sustainable Listed Infrastructure Fund on 21 October 2021.
- New supplement was issued for the Global Property Securities Fund on 23 November 2021.
- Effective from 10 December 2021, update to the Addendum to the Prospectus to incorporate Taxonomy Regulation disclosures.
- New supplement was issued for the Global Responsible Equity Fund on 16 December 2021.

# **GENERAL INFORMATION (continued)**

# SIGNIFICANT EVENTS DURING THE PERIOD (continued)

# Prospectus & Supplement changes (continued)

- New supplement was issued for the Preferred Securities Fund on 16 December 2021.
- Effective from 16 December 2021, Global Equity Fund was renamed to Global Responsible Equity Fund on 16 December 2021.
- Effective from 16 December 2021, Global Equity Fund was renamed Global Responsible Equity Fund and classified as an ESG Orientated Fund under SFDR.
- Effective from 16 December 2021, Preferred Securities Fund was classified as an ESG Oriented Fund under SFDR.
- New supplement was issued for the European Equity Fund on 14 February 2022.
- New supplement was issued for the Post Short Duration High Yield Fund on 1 March 2022.
- Effective from 1 March 2022, Post Global Limited Term High Yield Fund was renamed to Post Short Duration High Yield Fund and classified as an ESG Orientated Fund under SFDR.

### Other Events

- Barbara Wenig was appointed as a director of Principal Global Investors (Ireland) Limited on 19 October 2021.
- David Shubotham (independent non-executive director) resigned from the Board of Principal Global Investors (Ireland)
   Limited on 1 December 2021.
- The invasion of Ukraine by Russia on 24 February 2022 has created extensive uncertainty on the political and economic front. Market analysts are reworking expectations for inflation and interest rate policy as they assess the effects of the conflict. The geopolitical conflict is also challenging the western world, which will likely result in a rethinking of Europe's dependency on Russian oil and gas. The longer-term impact on economies, markets, industries and individual issuers, are not yet known. The Manager continues to monitor the situation closely.
- During the financial period, COVID-19 continued to spread around the world, however the global rollout of various vaccines contributed to the reopening of many economies and restrictions being lifted. COVID-19 did not have a significant adverse impact on the net asset value of the Funds during the six month period ended 31 March 2022.

There have been no other significant events affecting the Funds during the period ended 31 March 2022.

### SIGNIFICANT EVENTS AFTER THE PERIOD END

- Effective from 27 April 2022, Asian High Yield Fund was classified as an ESG Orientated Fund under SFDR.
- Since the period end, there has been a resurgence in coronavirus infections, however, most economies remain open, and the reintroduction of restrictions have been limited. The ultimate economic effect of the pandemic and the long-term impact on economies, markets, industries, and individual issuers, are not known. The Manager continues to analyse the evolving economic, political and market landscape.
- Global Diversified Income Fund is expected to close during 2022.

There have been no other significant events affecting the Funds after the period ended 31 March 2022.

### **INVESTMENT ADVISER'S REPORT**

# for the period ended 31 March 2022

# Global Responsible Equity Fund\*

For the six month period to 31 March 2022, PGIF Global Equity Fund reported net performance of -1.36% compared to 0.96% for the index, MSCI AC World NTR Index.

Relative sector performance was strong in communication services and industrials. Ebara and Alphabet were partial drivers to the relative upside. Energy and IT were the largest detractors over the past six months. An underweight to energy was the largest driver of the relative underperformance.

The past six months has been highlighted by the following themes.

- Escalating geopolitical risks Russia's invasion of Ukraine amplified already challenging conditions across global equity markets, with many declining into official correction levels.
- Commodities at the forefront supply-chain disruption, intensified by events in Eastern Europe, pushed resource prices to multi-year highs, led by oil.
- Monetary tightening amid the highest inflation rates in decades, the US Federal Reserve outlined plans for balance sheet reduction and initiated its first rate-hike since 2018.

It has become apparent that investors will be grappling with geopolitical and macro developments for the foreseeable future. Ranging from the Russia invasion into Ukraine, central banks shifting their monetary policies, persistent supply chain bottlenecks and inflation hitting levels not seen since the 80's, all culminates in rising deglobalization and growth risks and the potential of an economic downturn. Equity investors will need to take a balanced approach amid a likely choppy and volatile environment. Earnings growth does remain favorable while recent corrections leave for valuation improvement opportunities in specific companies. We will remain focused on companies delivering strong earnings over a multi-year horizon while being keenly aware of the various market risks facing equities in the near term.

\*Global Equity Fund name changed to Global Responsible Equity Fund on 16 December 2021.

# **European Equity Fund**

For the six month period to 31 March 2022, the European Equity Fund reported net performance of -6.85% compared to -2.12% for the index, MSCI Europe NTR Index.

Underperformance during the period was driven by stock selection. The Fund saw the most positive stock selection in Norway, Spain, and the real estate sector. We saw strong performance during the period from Norwegian exploration & production company Equinor which rose 49%, Australian mining company Rio Tinto which rose 28%, and AP Moller – Maersk, a transportation company based in Denmark, which rose 25%.

We saw negative attribution during the from the United Kingdom, Switzerland, and the financials sector. The largest negative sources of attribution were from UK food retailer Marks and Spencer (-42%), German drug discovery company Evotec (-40%), and Swiss laboratory automation leader Tecan (-35%).

European markets saw an increase in volatility during the fourth quarter of 2021, reflecting the latest Covid variant, Omicron. Compared to prior strains, this variant appeared to be much more highly transmissible, eliciting very mixed responses across countries, ranging from strict lockdowns to confusing and inconsistent regulation. Market leadership rotated dizzyingly back and forth from "re-opening" to "stay-at-home" beneficiary themes. In the end, technology was the top performing sector globally for the quarter. The more defensive utility, real estate and consumer staple sectors also handily outperformed the broad market. Meanwhile, the global energy sector earned the top slot for the full year by a wide margin.

Regional equity markets grappled with a slew of adverse geopolitical and macro developments throughout the first quarter of 2022, pulling a wide majority of market indices into correction territory. Russia launched a full-scale invasion of Ukraine, unleashing the largest European conflict since World War II. The United States, Europe and NATO allies have responded with swift economic sanctions with restrictions on Russian oil imports at the forefront.

Clearly there are a range of much broader potential ramifications from this conflict with some beginning to be realized. These include the effects of higher energy prices, the risk of supply shortages in other commodities, and altered investment by countries or regions seeking greater security of supply across these areas. Significant changes in demand trends are also unfolding, most notably an increase in defense spending in Europe. The aerospace & defense industry was a top performer after lagging for many years. Notably, Germany announced an extraordinary pledge of an €100 billion increase to its 2022 defense budget.

### **INVESTMENT ADVISER'S REPORT**

# for the period ended 31 March 2022 (continued)

### **European Equity Fund (continued)**

Even before the invasion, rising inflation and persistent supply chain bottlenecks had already begun to weigh on investor sentiment. Share prices across most economic sectors witnessed sharp declines, with the notable exception of the global energy sector, which posted a sharp advance of more than 20%. Materials and utilities also eked out gains on expected supply shortages and greater prospects of energy independence

It has become apparent that investors will be grappling with geopolitical and macro developments for the foreseeable future. Ranging from the Russia invasion into Ukraine, central banks shifting their monetary policies, persistent supply chain bottlenecks and inflation hitting levels not seen since the 80's, all culminates in rising deglobalization and growth risks and the potential of an economic downturn. Equity investors will need to take a balanced approach amid a likely choppy and volatile environment. Earnings growth does remain favourable while recent corrections leave for valuation improvement opportunities in specific companies. We will remain focused on companies delivering strong earnings over a multi-year horizon while being keenly aware of the various market risks facing equities in the near term.

Moving forward, we remain increasingly confident that company specific fundamentals will reassert themselves as the key driver of stock specific performance as investors deal with the constant fluidity of geopolitical events and disruption risks. With the path to recovery likely uneven across the globe, our analysts remain hyper-focused on the duration of the change they can identify. Various companies have seen an increased dislocation between consensus earnings expectations and our own forecasts. Additionally, the analysts are focusing their attention on differentiating between those companies that are able to pass on rising costs, and deal with supply chain challenges versus those which are unable to do so. We look to capitalize on this.

Regardless of the region, sector, or general market conditions, our bottom-up focus on sustainable earnings trends and valuations relative to expectations remains a constant across the portfolio and helps rise above the fray of short-term "risk on/risk off" tendencies of many investors during bouts of volatility. As always, our analysts' search for underappreciated fundamental change at attractive valuations continues and, despite the macro noise, is highlighting profitable investment opportunities across sectors and regions.

### **Preferred Securities Fund**

For the six month period to 31 March 2022, the Preferred Securities Fund reported net performance of -5.19% compared -7.53% for the index, Bloomberg Barclays Global Aggregate Corporate USD TR Index.

Selection in legacy banking hybrids contributed 0.16%. Selection in trust preferred floating rate preferred securities contributed 0.03%. Allocation to baby bonds contributed 0.01%. The 31.3% weight to insurance hybrids detracted 0.84%. The 27.8% weight to additional Tier-1 CoCos detracted 0.22%. The 5.1% weight to utility hybrids detracted 0.22%.

The markets were under significant pressure from the Fed's capitulation on inflation worries after convincing markets that inflation was merely "transitory". The period started off with the Fed Chairman Jerome Powell saying, "we are on track to begin a taper of our asset purchases that, if the economy evolves broadly as anticipated, will be completed by the middle of next year...it is time to taper, and I do not think it is time to raise rates." This view changed quickly during the last three months of the period as the Fed hiked rates as soon as the taper was done in March. The quick adjustment by bond markets caused the third worst quarter for bond prices in over a decade as inflation was the worst in 40 years.

Markets are not accustomed to the Fed raising rates for the wrong reason (i.e., inflation), which means that the Fed's equity put has expired for now – the implication is that equity and bonds will have to reprice and clear valuations without liquidity being guaranteed by the Fed, but rather discovered by the markets. If the Fed, in fearing unanchored inflation expectations, decides to allow a recession to happen with quantitative tightening then rates could elevate more and widen credit spreads more. Nonetheless, hybrids offer the most positive real yield opportunities net of inflation and net of historical default when compared to investment grade corporates and junk bonds. Positive real yield opportunities for hybrids make them worthy inflation combatants and a tactical defensive adjunct for fixed income allocators. Therefore, despite an overall stagflationary outlook, hybrids can offer solid relative plays to mitigate fixed income risks and even improve cashflows as coupons would reset to higher levels over the next few years if rates and inflation stay elevated.

# **Global High Yield Fund**

For the six month period to 31 March 2022, the Global High Yield Fund reported net performance of -3.93% compared to -5.79% for the index, ICE BofA Global High Yield USD Hedged Index.

Security selection positively impacted relative returns due to the outperformance from overweights to Intralot Capital and Oasis Petroleum, underweights to China Evergrande Group, Kaisa Group Holdings LTD, Veon Holdings, and our positioning within the capital structure of Oasis Petroleum. This was somewhat offset by the underperformance from overweights to Mulhacen PTE LTD, Aggregate Holdings SA, Pro-Gest SPA, Aryzta AG, and an underweight to Petroleos Mexicanos.

### **INVESTMENT ADVISER'S REPORT**

# for the period ended 31 March 2022 (continued)

### **Global High Yield Fund (continued)**

Sector allocation outperformed due to an underweight to real estate and an overweight to capital goods. However, this was somewhat offset due to underweights to energy and utilities.

Our base case remains for slightly higher rates, and we were correct that the Federal Reserve (Fed) would start their tightening process in March 2022. We still believe the geopolitical conflict likely decreases the risk of an over aggressive Fed and a potential for a policy miss-step. We also believe that steady, positive economic growth, a very strong high yield fundamental environment and valuations will be a foundation for good long-term returns. We believe that issuer fundamentals will continue to improve and will be stronger than pre-COVID-19 levels by the middle of 2022. With the significant amount of issuance, we have seen over the last couple of years and very little debt maturing, we are very confident that defaults will decline to the 1-1.50% area by the end of this year, which is well below historical levels. The actual Moody's global 12-month trailing default rate is at 1.98% and their forecast see rates rising to 2.92% over the next year.

We continue to further incorporate our dynamic environmental, social and governance (ESG) and data science initiatives into our fundamental research. These initiatives represent the continual evolution of our high yield investment process. These proprietary tools have allowed us to test our investment biases and have highlighted unique investment opportunities while expanding efficiencies across the high yield team. Through the utilization of our internal ESG scores, we have improved the overall portfolio exposure to these factors. In addition, we remain focused on reducing the portfolio's overall carbon footprint.

### **Global Property Securities Fund**

For the six month period to 31 March 2022 the Global Property Securities Fund reported net performance of 3.60% compared to 5.80% for the index, FTSE EPRA NAREIT Developed NTR Index.

The fund underperformed the benchmark due to stock selection. China exposure detracted on regulatory crackdowns. Underweight to strong fundamentals in U.S. self-storage and exposure to net lease stocks pressured by rising rates and inflation detracted. Underweights to underperforming U.S. data centers and Japanese REITs and overweight to outperforming U.S. industrial contributed to performance.

Despite volatility due to rising inflation and rates, the emergence of Omicron, the conflict in Ukraine, and concerns over a China slowdown, global REITs outperformed general equities, exhibiting more resilience as fundamentals remain robust.

Self-storage and industrials led the way on solid fundamentals. Shopping centres benefitted from a strong retail sales environment. Rate-sensitive data centres lagged, as did manufactured homes due to potential sensitivity of the RV business to rising gas prices. Regionally, the Americas strongly outperformed, supported by reopening momentum and strong earnings reports. Europe was pressured by the Russia-Ukraine conflict and Asia was dragged by weakness in Japan.

Given geopolitical uncertainties that could weigh on growth, it's possible that the market may have turned overly hawkish on rate hikes in the short-term. Any signs of thawing with the conflict in Ukraine, could lift rate-sensitive and growth stocks. Under a base case scenario of above trend inflation accompanied by solid growth, physical property should function well as an inflation hedge. However, the conflict in Ukraine could exacerbate the tightness in commodity supply, creating upside risks to inflation and potential downside risks for growth. This stagflationary scenario would negatively impact broader risk assets.

In the past year, we have been opportunistically reorienting the portfolio toward value and cyclicals given the improving growth outlook. We continue to maintain a core of structural growth stocks, which we believe have pricing power given strong fundamentals and should be well positioned to weather any growth slowdown driven by higher than anticipated inflation.

# Post Short Duration High Yield Fund\*

For the six month period to 31 March 2022, the Post Short Duration High Yield Fund reported net performance of -1.99% compared to -2.22% for the index, Bloomberg Barclays U.S. Government 1-2 Year Index.

The Fund generated modest negative returns, with significantly higher short-term interest rates a challenging backdrop for fixed-rate bonds. Turnover declined during the period amid the challenging rates environment, with limited new issue supply and limited calls and tenders to refinance existing maturities. We selectively trimmed certain lower coupon, more interest-rate sensitive bonds. We reinvested these proceeds into higher coupon, short duration bonds that offer better "carry" and generally more spread cushion and shorter duration rolling call bonds that should benefit from a rising rate environment and remain outstanding longer than expected.

### INVESTMENT ADVISER'S REPORT

# for the period ended 31 March 2022 (continued)

### Post Short Duration High Yield Fund\* (continued)

With the rapid flattening of the Treasury yield curve during the first quarter, a substantial amount of the limited interest rate risk in short duration has probably been attenuated. While it is possible that we may continue to see further pressure on short-term Treasury yields, we would note that the 2-year and 5-year yields are approximately in line with 8-quarter forward forecasts for the Federal Funds Rate as of quarter-end, and the 2-year Treasury yield approximates the forecasted upper bound on the Federal Funds Rate — conditions which should mitigate further short-term rate risk. With spreads continuing to remain low by historical standards, our focus continues to be on investing in quality credits whose businesses and balance sheets can endure different kinds of volatility.

\* Post Global Limited term High yield Fund name changed to Post Short Duration High Yield Fund on 1 March 2022.

### **Origin Global Emerging Markets Fund**

For the six month period to 31 March 2022, the Origin Global Emerging Markets Fund reported net performance of -8.46% compared to -8.20% for the index, MSCI Emerging Markets NTR Index.

The Fund underperformed its index over the period. While Russia was the largest negative contributor this was offset to a reasonable degree by strength in China, Korea and Taiwan. From a sector perspective financials were the biggest losers – again driven by Russia both directly and indirectly – while this was offset by strength in IT and in both consumer discretionary and staples sectors. Lack of exposure to commodity energy producers was also a source of relative weakness.

At the end of the period, the Fund's highest overweight by sector remains Information Technology, though this long standing position has been joined now by overweight positions in financials, energy and materials at the expense of consumer discretionary names. From a geographical point of view, Taiwan remains the largest overweight position with China also overweighted versus underweights in India and Saudi Arabia.

Origin will continue to bias our portfolios towards high quality growing companies with reasonable valuations, above market EPS revisions and relative price strength. However recent months have seen an extraordinarily strong swing in investor sentiment away from stocks with high profitability and growth towards the cheapest and lowest quality names. Only time will tell how sustainable this turns out to be, but in the meantime the fund continues to hold a diversified portfolio of highly profitable companies which are now trading at or indeed well below average market valuation levels.

# **Origin Global Smaller Companies Fund**

For the six month period to 31 March 2022, the Origin Global Smaller Companies Fund reported net performance of -6.13% compared to 4.26% for the index, MSCI All Country World Small Cap Index.

The Fund underperformed the index over period. The healthcare sector was the standout positive contributor from the perspective of both allocation – the fund was underweight this underperforming sector – and strong selection within the sector. Stock selection was also notably strong within communication services and IT, offset by weakness in consumer discretionary, materials, real estate and financials. From a regional perspective selection was strongest within the emerging markets and weakest within North America.

At the end of the period, the Fund's highest overweight by sector remains financials, followed by communications and a now much lower exposure to consumer discretionary. Regionally the emerging markets remain overweighted together with a reduced position in the UK. The fund is underweight in continental Europe and in Japan.

Origin will continue to bias our portfolios towards high quality growing companies with reasonable valuations, above market EPS revisions and relative price strength. However recent months have seen an extraordinarily strong swing in investor sentiment away from stocks with high profitability and growth towards the cheapest and lowest quality names. Only time will tell how sustainable this turns out to be, but in the meantime the fund continues to hold a well diversified portfolio of highly profitable companies which are now trading at or indeed well below average market valuation levels.

### **Global Diversified Income Fund**

For the six month period to 31 March 2022, the Global Diversified Income Fund reported net performance of -2.57% compared to -4.43% for the index, 80% Bloomberg Barclays Global High Yield Index / 20% MSCI ACWI Value Index.

During the period performance was driven by an overweight allocation to equities, which slowed at the end of the period, but overall, generated strong gains on an absolute basis. Stock selection within our equity sleeves was also a benefit, driven by favourable positioning in the ex-US value equity sleeve. Within fixed income, absolute returns were negative, but manager selection mitigated the impact. Security selection in our high yield sleeve was particularly beneficial to results.

### **INVESTMENT ADVISER'S REPORT**

# for the period ended 31 March 2022 (continued)

### Global Diversified Income Fund (continued)

During the period we strategically eliminate the dedicated allocation to emerging market debt. The strategic reduction reflected our view that valuations were fair and that at a smaller fund size, diversification in a dedicated EM portfolio could be challenged. Elsewhere we neutralized the overweight to ex-US stocks vs US stocks, leaving a modest bias to ex-US stocks given their favourable tax treatment for investors.

We remain overweight equities relative to our strategic index, although the latest geopolitical events and the hawkish turn by the Fed have subdued our optimism. While recent economic data point to a still-robust U.S., the clouds are gathering and the dramatically high levels of inflation and rising policy rates will slow US growth through 2022 with recession risk rising for late 2023. We anticipate around 200bps of further Fed tightening this year, plus quantitative tightening, injecting additional volatility into the market. For Europe, recession is increasingly likely within the next few quarters, particularly with the rising chances of a cut in Russian energy supply. China's underwhelming policy response and strict COVID policy indicate additional near-term headwinds to global growth. While the equity market could eke out positive gains from here, the downside risks are considerably greater. Against that backdrop, and given the sharp rise in bond yields, we are doubtful that equities will deliver a strong comeback this year.

# Finisterre Unconstrained Emerging Markets Fixed Income Fund

For the six month period to 31 March 2022, the Finisterre Unconstrained Emerging Markets Fixed Income Fund reported a net performance of -3.21%.

We generally had success with rates paying or interest rates curve positions in Poland. We continue to hold our 5Y Polish payer, benefitting from the CB's hawkish turn as their policy gap closes to the rest of CEE. Performance contributors during the period were positions in Brazil. Local Sovereign Brazil is a large commodity export country and benefited from the global rise in commodity prices. We are short duration in both Poland and United States as we benefit from raising rates.

Unsurprisingly, the largest detractors over the period stem from the Fund's exposure to Ukraine. Although we reduced positions in Ukraine during the month of February 2022, the remaining positions in sovereign and state guaranteed paper detracted from performance. Furthermore, remaining detractors for the period we managed the Fund were mainly from hard-currency sovereign positions which drew down given the negative risk sentiment with "non-oil" names such as Romania. Finally we saw losses coming from Russia local bonds and a Wireless company.

We can split the period in two between pre and post Russia invasion. The one thing that remained consistent is our focus to the changing dynamics of the inflation narrative inflation pressures. In terms of portfolio structure, we maintain a cautiously constructive tilt on risk with a bias for HY in credit, a paying bias in low yielders with inflationary pressures and a long rates bias in those fiscally credible markets that have meaningfully re-priced (Russia, Mex, Brazil) or exhibit attractive real rates (Indo/SOAF). Following the Russian invasion, there were several meaningful adjustments to the portfolio over March 2022. Although net portfolio duration decreased slightly from 3.51yrs to 3.12yrs, we continued to add to long duration USD sovereigns, while adding payers in CEE, Asia and Chile. In FX, we remained short dollars in aggregate, but we have reduced some positions (notably BRL) in light of the strong moves YTD. Our short RUB positioning was successfully monetized early in the month and we initiated a short EGP position ahead of the recent devaluation, which we monetized at a healthy profit shortly after. The portfolio is now running a tactical short on the Chinese Yuan which we think may weaken somewhat on temporary Covid headwinds, a lower export contribution to GDP going forward, and a shrinking rates differential with the US.

We look forward into Q2 2022 with a constructive view on the EMD asset class and a portfolio that is set up to reflect this view. Our bias is to think that in the short term, the impact of the Ukraine war will mainly amplify pre-existing trends. Indeed, the push higher in commodities is a further tailwind for existing inflationary trends, likely prompting a further policy tightening across DMs, which eventually revives growth worries. However, we think that this does not apply as much to EMs. We view the asset class as both undervalued and under-owned, and some of the current challenges for global risk assets are in fact opportunities for EM over the months to come. The current commodity price strength is a challenge for oil and food importers like India, Turkey, Egypt or Tunisia, but plays very positively for exporters in Latin America, Africa and the Gulf. As we have noted previously, many EM central banks are well advanced in their responses to inflation: while they might need to go slightly further than what was expected 2 months ago, most are significantly closer to the end of the cycle than to the beginning, and EM local assets should benefit. We are more sanguine about growth reflation in China than many commentators, and believe that the policy response will be enough to prevent a hard landing. Lastly, we think that the dual pressure of rising core rates and higher commodity prices will force many (previously recalcitrant) EM policy makers to be more pragmatic in their engagement with international financial institutions like the IMF, which should lead to more orthodox policy choices overall. The program in Argentina is one example of this and we expect similar developments shortly in Egypt, Tunisia and Sri Lanka.

### **INVESTMENT ADVISER'S REPORT**

# for the period ended 31 March 2022 (continued)

# U. S. Blue Chip Equity Fund

For the six month period to 31 March 2022, the U.S. Blue Chip Equity Fund reported net performance of -7.78% compared to 1.43% for the index, Russell 1000 Growth NTR Index.

The fund was negatively impacted by both company selection and sector allocation over the period. The Information Technology sector had the most impact, as fund holdings PayPal, salesforce.com, and Adobe underperformed. Selection in the sector was also hurt by not owning Apple, a large constituent of the benchmark that had strong performance during the period. The fund benefited from its holdings in the Financials sector, driven primarily by the solid performance of Progressive, Charles Schwab, and Brookfield Asset Management.

Equity markets were volatile over the period. Persistent inflation, and the expectation for more Fed rate hikes to fend it off, led to concerns about valuations. Growth stocks experienced the steepest selloff. Given the market's wariness toward anything with a premium valuation, higher quality companies also fared poorly. Companies in more cyclical areas outperformed.

Given our time horizon as long-term, fundamental investors that commonly own shares in companies for several years, we do not have a near-term market outlook. We will continue to seek opportunities to invest in high quality companies that are managed by owner-operators and trade at a discount to our estimate of their intrinsic value.

### **Asian High Yield Fund**

For the six month period to 31 Mar 2022, the Asian High Yield Fund reported net performance of -16.75% compared to -22.52% for the index, ICE BofA Asian Dollar High Yield Index.

Over the period, our strongest absolute return contributors were from the agencies, banking and financial services sectors. Our main drag from an absolute return perspective came from the real estate sector as defaults continued to rise and negative sentiment on the property sector, which dragged total return to be negative for this period. By individual issuers, the fund saw its largest positive return contribution from issuers in the real estate sector, including an off-benchmark position in a Chinese asset manager.

On a relative basis, the outright underweight in the Chinese real estate issuers was a dominant positive contributor alongside with other underweights in sovereign and leisure. On a relative basis, the major drags to our performance came from overweights in financials and technology names which underperformed due to duration.

The Fund outperformed its benchmark over the period driven by strong contribution from both sector allocation and stock selection.

Asia high yield markets have underperformed in YTD 2022 and continue to remain in the negative return territory for the year. While overall yields continue to remain near all-time highs, the fund remains underweight in the Asia high yield space pending confirmation of supportive monetary policy in China that can stabilize the Chinese real estate space; as well as expectation of tightening global financial conditions due to shift in US Federal Reserve's monetary policy. The Fund's strategy remains focused on bottom-up credit selection in view of the higher default rates in China property HY as well as increased allocation to non-property HY which have a better fundamental outlook. Within the China HY space, the fund has rotated to the better-quality developers who are likely to survive the current period of default and consolidation in view of expectations that any policy support, while selectively forthcoming, is likely to disproportionately benefit the better rated players. The fund holds a smaller underweight in the energy and basic materials space in view of the positive backdrop for commodities but reflecting the tight valuations. The fund remains underweight in the frontier markets due to stretched government balance sheets and reduced liquidity buffers. The overall underweight in Asia high yield is coupled with off benchmark positions in emerging markets sovereigns and corporates as well as selected European financials where the risk reward is favourable and the carry is attractive. Additionally, the fund is running higher than typical cash levels that can be deployed when the outlook on the real estate sector improves or when the volatility in global markets subsides.

### Finisterre VAG Unconstrained EM Fixed Income Fund

For the six month period to 31 March 2022, the Finisterre VAG Unconstrained EM Fixed Income Fund reported a net performance of -2.57%.

We generally had success with rates paying or interest rates curve positions in Poland. We continue to hold our 5Y Polish payer, benefitting from the CB's hawkish turn as their policy gap closes to the rest of CEE. Performance contributors during the period were positions in Brazil. Local Sovereign Brazil is a large commodity export country and benefited from the global rise in commodity prices. We are short duration in both Poland and United States as we benefit from raising rates.

# for the period ended 31 March 2022 (continued)

### Finisterre VAG Unconstrained EM Fixed Income Fund (continued)

Unsurprisingly, the largest detractors over the period stem from the Fund's exposure to Ukraine. Although we reduced positions in Ukraine during the month of February 2022, the remaining positions in sovereign and state guaranteed paper detracted from performance. Furthermore, remaining detractors for the period we managed the Fund were mainly from hard-currency sovereign positions which drew down given the negative risk sentiment with "non-oil" names such as Romania. Finally we saw losses coming from Russia local bonds and a Wireless company.

We can split the period in two between pre and post Russia invasion. The one thing that remained consistent is our focus to the changing dynamics of the inflation narrative inflation pressures. In terms of portfolio structure, we maintain a cautiously constructive tilt on risk with a bias for HY in credit, a paying bias in low yielders with inflationary pressures and a long rates bias in those fiscally credible markets that have meaningfully re-priced (Russia, Mex, Brazil) or exhibit attractive real rates (Indo/SOAF). Following the Russian invasion, there were several meaningful adjustments to the portfolio over March 2022. Although net portfolio duration decreased slightly, we continued to add to long duration USD sovereigns, while adding payers in CEE, Asia and Chile. In FX, we remained short dollars in aggregate, but we have reduced some positions (notably BRL) in light of the strong moves YTD. Our short RUB positioning was successfully monetized early in the month and we initiated a short EGP position ahead of the recent devaluation, which we monetized at a healthy profit shortly after. The portfolio is now running a tactical short on the Chinese Yuan which we think may weaken somewhat on temporary Covid headwinds, a lower export contribution to GDP going forward, and a shrinking rates differential with the US.

We look forward into Q2 2022 with a constructive view on the EMD asset class and a portfolio that is set up to reflect this view. Our bias is to think that in the short term, the impact of the Ukraine war will mainly amplify pre-existing trends. Indeed, the push higher in commodities is a further tailwind for existing inflationary trends, likely prompting a further policy tightening across DMs, which eventually revives growth worries. However, we think that this does not apply as much to EMs. We view the asset class as both undervalued and under-owned, and some of the current challenges for global risk assets are in fact opportunities for EM over the months to come. The current commodity price strength is a challenge for oil and food importers like India, Turkey, Egypt or Tunisia, but plays very positively for exporters in Latin America, Africa and the Gulf. As we have noted previously, many EM central banks are well advanced in their responses to inflation: while they might need to go slightly further than what was expected 2 months ago, most are significantly closer to the end of the cycle than to the beginning, and EM local assets should benefit. We are more sanguine about growth reflation in China than many commentators, and believe that the policy response will be enough to prevent a hard landing. Lastly, we think that the dual pressure of rising core rates and higher commodity prices will force many (previously recalcitrant) EM policy makers to be more pragmatic in their engagement with international financial institutions like the IMF, which should lead to more orthodox policy choices overall. The program in Argentina is one example of this and we expect similar developments shortly in Egypt, Tunisia and Sri Lanka.

# Finisterre Emerging Markets Debt Euro Income Fund

For the six month period to 31 March 2022, the Finisterre Emerging Markets Debt Euro Income Fund reported a net performance of -8.69%.

Unsurprisingly the largest detractor was Russia. Our Russian exposure is mostly Gazprom, which is still able to sell its gas in Europe and make interest payments on its debt. The fund also owns a Russian Sovereign bond in EUR and a small exposure to the Domodedovo Moscow Airport. Our view is to sell those positions as soon as practicable. Russian assets currently trade at extremely depressed levels that reflect rushed sales rather than fundamentals. We would use any partial recovery to dispose of the bonds at less punitive levels. On the other hand, our hedged duration positions were our main contributor in both US Treasury and Bund.

The Fund has a relatively low duration which helped this month as USD and EUR rates went up significantly. Our short positions in Bund and US Treasury futures contributed +0.39% to performance as a result. In FX, we remain long Latam currencies (BRL, CLP, MXN) that are more advanced than the FED in their hiking cycle. Our short RUB positioning was successfully monetized. The portfolio is now running a tactical short on the Chinese Yuan which we think may weaken somewhat on temporary Covid headwinds, a lower export contribution to GDP going forward, and a shrinking rates differential with the US.

### **INVESTMENT ADVISER'S REPORT**

# for the period ended 31 March 2022 (continued)

### Finisterre Emerging Markets Debt Euro Income Fund (continued)

We look forward into Q2 with a constructive view on the EMD asset class and a portfolio that is set up to reflect this view. Our bias is to think that in the short term, the impact of the Ukraine war will mainly amplify pre-existing trends. Indeed, the push higher in commodities is a further tailwind for existing inflationary trends, likely prompting a further policy tightening across DMs, which eventually revives growth worries. However, we think that this does not apply as much to EMs. We view the asset class as both undervalued and under-owned, and some of the current challenges for global risk assets are in fact opportunities for EM over the months to come. The current commodity price strength is a challenge for oil and food importers like India, Turkey, Egypt or Tunisia, but plays very positively for exporters in Latin America, Africa and the Gulf. Many EM central banks are well advanced in their responses to inflation: while they might need to go slightly further than what was expected 2 months ago, most are significantly closer to the end of the cycle than to the beginning, and EM local assets should benefit. We are more sanguine about growth reflation in China than many commentators, and believe that the policy response will be enough to prevent a hard landing. Lastly, we think that the dual pressure of rising core rates and higher commodity prices will force many (previously recalcitrant) EM policy makers to be more pragmatic in their engagement with international financial institutions like the IMF, which should lead to more orthodox policy choices overall. The program in Argentina is one example of this and we expect similar developments shortly in Egypt, Tunisia and Sri Lanka. We reiterate our conviction that EMD is poised for much better performance in coming weeks, starting from historically low valuation and investors ownership points.

# **China Opportunities Equity Fund**

For the six month period to 31 March 2022, the China Opportunities Fund reported net performance of -20.86%.

Overweight positions in PICC, BYD and Kweichow Moutai contributed the most to the portfolio during the period. Overweight positions in Sunac China, Chinasoft International and I-Mab detracted from performance during the period.

Our strategy turned more defensive in the fourth quarter of 2021 as the authorities introduced a series of policies and regulations aimed at relieving the cost of living of the people which hurt the profitability of many companies and created market volatility.

Our strategy turned more defensive in the first quarter of 2022 as FED turned more hawkish and omicron virus emerged in multiple cities in China. We continued to like companies with a long-term growth story, but we started to increase our position in companies with more reasonable valuation, like financials, consumer staples and energy names.

China's economic activities remained subdued in the first quarter of 2022 due to omicron outbreak in multiple large cities. Official Manufacturing PMI dropped to 49.5 in March from 50.2 in February.

In February, the energy sector outperformed the most as Brent Crude Oil rose to US\$99/bbl from US\$89/bbl at the end January. Decarbonization and advanced manufacturing growth names also rebounded, partly on the market's new assessment regarding the possibility of global central banks turning slightly less hawkish over the short term amidst the exogenous shock with the Russia-Ukraine conflict. In March, Chinese equities tumbled due to concerns over a worsening capital market environment. However, Chinese equities staged a deep-V rebound after Vice Premiere, Liu He, advocated stabilizing financial market in China. Overall earnings revision was weak in March. Therefore, we continue to focus on companies with reasonable valuation and long-term stories.

# Global Sustainable Listed Infrastructure Fund (launched on 15 November 2021)

From launch on 15 November 2021 to 31 March 2022, the Global Sustainable Listed Infrastructure Fund reported net performance of 7.40%.

Stock selection in North American utilities was the main positive contributor to performance. Our overweight to energy infrastructure was also a positive contributor as the strong commodity environment benefited the volume outlook for the group. The Transportation sector was the primary negative contributor as ongoing pandemic restrictions drove underperformance among our Asian positions

Despite volatility due to rising inflation and rates, the ongoing pandemic, the conflict in Ukraine, and concerns over a China slowdown, global listed infrastructure outperformed general equities, exhibiting more resilience as fundamentals remain robust. North America and Latin America were the strongest performing region within global listed infrastructure. Utilities, energy infrastructure and transportation all benefited from ongoing opportunities from the energy transition and concerns about energy security, as well as optimism about the economic outlook early in the period which later faded. EMEA was somewhat weaker but still achieved positive returns, whereas Asia was the only region to show a negative return

The current inflationary environment has been beneficial for several parts of the infrastructure sector. The factors pushing up inflation are a mix of transitory and structural. The transitory factors include supply chain bottlenecks sparked by COVID-

# **INVESTMENT ADVISER'S REPORT**

for the period ended 31 March 2022 (continued)

# Global Sustainable Listed Infrastructure Fund (launched on 15 November 2021) (continued)

19 related lockdowns and travel restrictions. The structural factors are the supply side tightness in commodities as well as wage pressures from reduced labor availability. We continue to find attractive opportunities using our bottom-up, stock selection focused approach, especially among listed infrastructure companies whose sustainability credentials are not reflected in current market valuations. US companies remain underappreciated for their carbon emissions reduction potential and scope to improve ESG practices more generally. Russia's invasion of Ukraine has brought greater focus on energy security, benefiting renewables and energy infrastructure operators in Europe and North America. We also see ample opportunity in emerging markets such as China and Chile.

<sup>1</sup>China Opportunities Equity Fund launched on 23 February 2021.

# PRINCIPAL GLOBAL INVESTORS FUNDS NOTES TO THE INTERIM REPORT AND FINANCIAL STATEMENTS for the period ended 31 March 2022

#### 1. FORMATION

The Principal Global Investors Funds ("the Trust") was constituted under the laws of Ireland by a Trust Deed dated 13 October 1992 as an open-ended umbrella Unit Trust established as an Undertaking for Collective Investment in Transferable Securities ("UCITS"). It is an umbrella Unit Trust in that different classes of units may be issued from time to time by the Manager. The Unit Trust has created a number of sub-funds (the "Funds"). Units of certain classes of the Trust are listed on the Euronext Dublin (formerly the Irish Stock Exchange). The Trust has been authorised by the Central Bank of Ireland (the "Central Bank") pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011, (as amended) and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) (Amendment) Regulations 2019 (the "Central Bank UCITS Regulations").

The financial statements have been prepared for the period ended 31 March 2022.

The Funds of the Trust are listed on pages 4 to 8. The Portfolios of Investments are listed on pages 24 to 92.

### 2. PRINCIPAL ACCOUNTING POLICIES

### **Accounting Convention and Basis of Accounting**

These condensed interim unaudited financial statements for the period ended 31 March 2022 have been prepared in accordance with accounting standards generally accepted in Ireland ("Irish GAAP") including Financial Reporting Standard ("FRS") 104 - Interim Financial Reporting ("FRS 104"), "The Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland" and the provisions of the UCITS Regulations and the Hong Kong Securities and Futures Commission's Code on Unit Trusts and Mutual Funds. Irish GAAP used in preparing financial statements which present a true and fair view are those standards issued by the Financial Reporting Council ("FRC").

The Trust has availed of the exemption available to open ended investment funds that hold a substantial proportion of highly liquid and fair valued investments under Section 7 "Statement of Cash Flows" of FRS 102, also referenced in section 15(g) of FRS 104 and is not presenting cash flow statements.

The Directors have a reasonable expectation that the Trust has adequate resources to continue in operational existence for the foreseeable future. The report has been prepared for all Funds in the Trust on a going concern basis with the exception of the Global Diversified Income Fund which is planned to terminate during 2022 – this Fund has been prepared on a basis other than going concern. Costs associated with the termination of the Fund will be borne by the Manager with no provision being made in these financial statements for such costs. The report has been prepared for all Funds in the Trust under the historical cost convention, as modified by the revaluation of financial assets at fair value through profit or loss. The report has been prepared in USD for all Funds except Finisterre Emerging Markets Debt Euro Income Fund. The functional currency of Finisterre Emerging Markets Debt Euro Income Fund is Euro. The functional and presentation currency of the Trust is USD.

The format and certain wordings of the financial statements have been adapted from those contained in Irish statute so that, in the opinion of the Directors, they more appropriately reflect the nature of the Trusts business as an investment fund.

The information required by FRS 102, to be included in a single statement of comprehensive income for the reporting period displaying all items of income and expense recognised during the period including those items recognised in determining profit or loss and items of other comprehensive income and a Reconciliation of Movements in Unitholders' Funds are, in the opinion of the Directors, contained in the Statements of Comprehensive Income and the Statements of Movement in Net Assets Attributable to Redeemable Participating Unitholders. In arriving at the results for the year, all amounts in the Statements of Comprehensive Income relate to continuing activities. In the opinion of the Directors, the financial statements give, in all other respects, the information required by the UCITS Regulations and the Hong Kong Securities and Futures Commission's Code on Unit Trusts and Mutual Funds.

All gains or losses for the period are reflected in the Statements of Comprehensive Income.

The significant accounting policies adopted by the Trust are set out overleaf. These policies have been consistently applied to the financial periods presented unless otherwise stated.

for the period ended 31 March 2022 (continued)

# 2. PRINCIPAL ACCOUNTING POLICIES (continued)

#### Financial Instruments at Fair Value through Profit or Loss

Under FRS 102, in accounting for its financial instruments a reporting entity is required to apply either (a) the full provisions of Section 11 "Basic Financial Instruments" and Section 12 "Other Financial Instruments Issues" of FRS 102, (b) the recognition and measurement provisions of International Accounting Standards ("IAS") 39 "Financial Instruments: Recognition and Measurement" ("IAS 39") and only the disclosure requirements of Sections 11 and 12 of FRS 102; or (c) the recognition and measurement provisions of International Financial Reporting Standards ("IFRS") 9 "Financial Instruments" ("IFRS 9") and the disclosure requirements of Sections 11 and 12. The Trust has elected to apply the recognition and measurement provisions of IAS 39 and the disclosure requirements of Sections 11 and 12.

This category has two sub-categories: financial assets and liabilities held for trading, and those designated by the Valuation Committee of the Manager at fair value through profit or loss at inception. All instruments on the Portfolio of Investments are classified as held at fair value through profit or loss. Subsequent to initial recognition, all instruments classified at fair value through profit or loss are measured at fair value with changes in their fair value recognised in the Statement of Comprehensive Income. Financial assets are derecognised when the rights to receive the cashflow from the investments have expired or the Funds have transferred substantially all of the risks or rewards of ownership.

### **Accounting for Investments**

Investments are recognised at the trade date at last traded prices. Realised gains or losses on investment disposals are calculated using the average cost method. Realised gains or losses on investment transactions in debt instruments are calculated using the amortised cost method based on the effective interest rate.

#### Valuation of Investments

The period end valuation date was 31 March 2022, the last business day of the interim period. Securities listed on a recognised stock exchange or traded on any other organised market, are valued at the current-price at each valuation point on the stock exchange or market which constitutes the principal market for such securities. If trades are received after the dealing cut-off time they will be accounted for in the next valuation. If for specific assets the current prices do not, in the opinion of the Manager, reflect their fair value or are not available, the price of the most recent transaction provides evidence of the current fair value as long as there has not been a significant change in economic circumstances since the time of the transaction or the Manager may also apply a fair value adjustment where they deem appropriate in order to reflect fair value.

In the case of any security not listed, quoted or dealt on a regulated market or for which no quotation or value is available which would provide a fair valuation, or in respect of which the price is unrepresentative, the fair value of such security is determined on the basis of the probable realisation value and is determined by the Valuation Committee of the Manager with input from the Investment Adviser, Sub-Investment Adviser(s), a stockbroker or other competent person appointed by the Manager and approved for the purpose by the Trustee, using valuation techniques.

#### **Futures**

A futures contract obligates one party to sell and the other party to purchase a specific instrument for an agreed price at an agreed future date. Futures may be used subject to the conditions and limits laid down by the Central Bank and the Trust Deed and subject to any other restrictions or regulations which may affect the portfolio management of the Funds or the Investment Adviser/Sub-Investment Adviser(s). Certain Funds may buy or sell futures to provide an efficient, liquid and effective method for the management of risks by "locking in" gains and/or protecting against future declines in value. The fair value of open future contracts is calculated as the difference between the contracted rate and the current rate that would close out the contract on the Statement of Financial Position date. Gains or losses on futures are included in the Unrealised Gain/(Loss) on Open Future Contracts on the Statement of Financial Position and are shown in the Portfolio of Investments. When the contract is terminated, the Fund will recognise a realised gain or loss in the Statement of Comprehensive Income equal to the difference between the value of the contract at the time it was entered into and the time it was closed.

### **Forward Foreign Currency Exchange Contracts**

In a Forward Foreign Currency Exchange Contract, the Funds agree to receive or deliver a fixed quantity of one currency for another, at a pre-determined price at a future date. The fair value of Forward Foreign Currency Exchange Contracts is calculated as the difference between the contracted rate and the current forward rate that would close out the contract on the Statement of Financial Position date. Gains or losses on Forward Foreign Currency Exchange Contracts are included in the Unrealised Gain/(Loss) on Forward Foreign Currency Exchange Contracts on the Statement of Financial Position and are shown in the Portfolio of Investments. Any realised gains or losses are recognised in the Statement of Comprehensive Income at trade date. The Funds may enter into these contracts to hedge against changes in currency exchange rates. The Forward Foreign Currency Exchange Contracts are used to hedge the currency exposure on individual positions taken by the Funds and to hedge certain non base currency units.

for the period ended 31 March 2022 (continued)

### 2. PRINCIPAL ACCOUNTING POLICIES (continued)

#### **Spot Currency Contracts**

In a Spot Currency Contract the Fund agrees to receive or deliver a fixed quantity of one currency for another, at a predetermined price at a future date (the spot date). This date is typically within three business days of inception of the contract. The fair value of Open Spot Currency Contracts is calculated as the difference between the contracted rate and the current forward rate that would close out the contract on the Statement of Financial Position date. Gains or losses on Spot Currency Contracts are included in the Unrealised Gain/(Loss) on Open Spot Currency Contracts on the Statement of Financial Position and are shown in the Portfolio of Investments. Any realised gains or losses are recognised in the Statement of Comprehensive Income at trade date.

#### **Credit Default Swaps**

A Credit Default Swap is a credit derivative transaction in which two parties enter into an agreement, whereby one party pays the other a fixed periodic coupon for the specified life of the agreement. The other party makes no payments unless a credit event, relating to a predetermined reference asset occurs. If such an event occurs, the party will then make a payment to the first party and the swap will terminate. When the swap terminates any realised gains or losses arising are reflected in the Statement of Comprehensive Income as part of the Net Gain/(Loss) on investment activities. A Credit Default Swap provides the Fund with an alternative to investing in assets themselves for a potentially higher return with the same risk or they may be used to obtain exposure to assets which the Fund could not otherwise acquire due to illiquidity in the relevant market. The Fund recognises the swap when it becomes party to the contract. The Credit Default Swaps are marked to market daily based upon quotations from market makers and recorded in the Statement of Financial Position as Market Value Gain/(Loss) on Swap Contracts.

### **Term Loans**

The Fund begins earning interest from settlement date of the trade. The loans pay interest at an assigned rate. A Fund investing in such a loan assumes the credit risk of the borrower and there could be potential loss to the Fund in the event of default by the borrower. Term loans are priced at quoted market prices or independently vendor priced, or at cost when vendor prices are unavailable.

#### **Interest Rate Swaps**

An Interest Rate Swap is a bilateral agreement in which each of the parties agrees to exchange a series of interest payments for another series of payments (usually fixed/floating) based on a notional amount that serves as a computation basis and that is usually not exchanged. The Interest Rate Swaps are marked to market daily based upon quotations from market makers and recorded in the Statement of Financial Position as Market Value Gain/(Loss) on Swap Contracts. When the swap terminates any gains or losses arising are reflected in the Statement of Comprehensive Income as part of the Net Gain/(Loss) on investment activities.

#### **Total Return Swaps**

A Total Return Swap is a financial contract whereby one party agrees to pay another party the total return of a defined asset in return for receiving a floating rate return. The Trust enters into unfunded swap agreements on behalf of the Fund. Total Return Swaps are marked to market using valuation sources/methods and the fair value is recorded in the Statement of Financial Position as Market Value Gain/(Loss) on Swap Contracts. The change in unrealised gains and losses or any realised gains or losses arising on termination are shown in Net Gain/(Loss) on investment activities in the Statement of Comprehensive Income.

Total Return Swap positions are valued using models which utilise observable data to the extent practicable and contain assumptions on the application of this data. Changes in data inputs and assumptions about these factors could affect the reported fair value of the Total Return Swaps.

#### **Foreign Currency Transactions**

In accordance with Section 30 "Foreign Currency Translation" of FRS 102, items included in the individual Fund's financial statements are measured using the currency of the primary economic environment in which it operates (functional currency). The Fund's selection of the functional currency is attributable to the functional currency being: a) the major component of the Fund's benchmark and b) the common proxy for most clients in the Fund's varied client base. The functional currency assessment was completed at a Fund level. The Funds' presentation currencies equated to their respective functional currencies when assessed under FRS 102. The functional currency of each Fund of the Trust is USD except of Finstree Emerging Markets Debt Euro Income Fund. The functional currency of Finstree Emerging Markets Debt Euro Income Fund is Euro.

for the period ended 31 March 2022 (continued)

### 2. PRINCIPAL ACCOUNTING POLICIES (continued)

### Foreign Currency Transactions (continued)

#### For each Fund:

- (i) Currency gains or losses can arise where there is a difference between the amounts of foreign dividends and interest recorded on the Fund's books and the Fund's functional currency equivalent of the amounts actually received or paid. These gains or losses are included where appropriate in the dividend net gain/(loss) on investment activities figure in the individual Fund's Statement of Comprehensive Income;
- (ii) Currency gains or losses realised on securities purchases and sales transactions are included in Net Gain/(Loss) on investment activities in the individual Fund's Statement of Comprehensive Income;
- (iii) Unrealised currency gains or losses on securities held at year end are included in Net Gain/(Loss) on investment activities in the individual Fund's Statement of Comprehensive Income; and
- (iv) Monetary assets and liabilities denominated in currencies other than the Fund's functional currency are translated at the rate of exchange ruling at the close of business on the Statement of Financial Position date and exchange differences are included in Net Gain/(Loss) on investment activities in the individual Fund's Statement of Comprehensive Income.

#### **Income from Investments**

Dividends are credited to the Statement of Comprehensive Income on the dates on which the relevant securities are listed as "ex-dividend". Interest income is accounted for daily on an effective yield basis. Income is shown gross of any non-recoverable withholding taxes, which are disclosed separately in the Statement of Comprehensive Income, and net of any tax credits. Realised gains or losses on investment transactions in debt instruments are calculated using the amortised cost method based on the effective interest rate.

#### Net Gain/(Loss) on Investment Activities

In respect of each instrument type classified as Financial Instruments at Fair Value through Profit or Loss, the movement in unrealised gains/(losses) since the prior period end and realised gains/(losses) are included in Net Gain/(Loss) on investment activities in the Statement of Comprehensive Income. Interest earned on fixed income securities such as bonds is included here also.

### **Due to Unitholders**

Due to unitholders represent monies received from investors for the purchase of shares, but for which shares have not been issued at the statement of financial position date.

### **Due from Unitholders**

Due from Unitholders represent monies received in respect of redemptions which is due to be paid to investors for the redemption of shares, but for which have not been redeemed at the statement of financial position date.

### **Expenses**

Operating expenses are recognised on an accruals basis in the Statement of Comprehensive Income.

### **Anti-Dilution Levy**

The Manager may exercise its discretion to apply an anti-dilution levy in relation to subscriptions and redemptions of units. The levy is a charge for transaction costs that may be deducted from the NAV per Unit of the relevant class to reflect the costs of acquiring or disposing of underlying assets to fund subscriptions or redemptions from the Fund, respectively. The levy is intended to be used to ensure that all investors in the Trust are treated equitably by allocating transaction costs to the investors whose transactions give rise to those costs. For the period ended 31 March 2022, there was anti-dilution levies charged on the following funds: Global Responsible Equity Fund \$(6,029), European Equity Fund \$356,802, Global High Yield Fund \$(6,315), Global Property Securities Fund \$(90,118), U.S., Blue Chip Equity Fund \$116,848 and Global Diversified Income Fund \$13,017. For the year ended 30 September 2021, there was anti-dilution levies charged on the following funds: Global Responsible Equity Fund \$11,950, Global Property Securities Fund \$214,715 and Origin Global Smaller Companies Fund \$9,365.

### Cash at Bank

Cash is valued at amortised cost, which approximates fair value. Cash is held with The Bank of New York Mellon SA/NV, Dublin Branch.

for the period ended 31 March 2022 (continued)

# 2. PRINCIPAL ACCOUNTING POLICIES (continued)

#### Cash Collateral & Pledged Collateral

Cash collateral provided by each Fund is identified in the Statement of Financial Position as cash collateral held and is not included as a component of Cash at Bank. For collateral other than cash, if the party to whom the collateral is provided has the right by contract or custom to sell or repledge the collateral, the Fund classifies that asset in its Statement of Financial Position separately from other assets and identifies the asset as Securities pledged as collateral. Where the party to whom the collateral is provided does not have the right to sell or repledge, a disclosure of the collateral provided is made in the notes to the financial statements. Any obligation arising from collateral received is measured at the fair value of the amount required to settle the obligation and separately identified in the Statement of Financial Position.

#### Margin Cash Receivable/Pavable

Cash Collateral Receivable/Payable to the Trust in relation to the open Futures Contracts and open Swap Contracts is identified in the Statement of Financial Position as Margin Cash Receivable/Payable and is not included as a component of Cash at Bank. Margin Cash Receivable and Margin Cash Payable at 31 March 2022 and 30 September 2021 are detailed as part of Note 4.

#### **Distributions**

The Global Responsible Equity Fund declare and pay annual distributions to Unitholders holding the A Income Unit Class.

The European Equity Fund declare and pay annual distributions to Unitholders holding the A Income Unit Class.

The Global Property Securities Fund declares and pay annual distributions to Unitholders holding the A, A2, D, I, I2 and N Income Unit Classes.

The U.S. Blue Chip Equity Fund declares and pay annual distributions to Unitholders holding the D and N Income Unit Classes.

The China Opportunites Equity Fund declares and pay annual distributions to Unitholders holding the I Income Unit Class.

The Preferred Securities Fund declare and pay quarterly distributions to Unitholders holding the A, I, D, F, N, P and X Income Unit Classes.

The Global High Yield Fund declare and pay quarterly distributions to Unitholders holding the A, I, D and N Income Unit Classes.

The Global Property Securities Fund declare and pay quarterly distributions to Unitholders holding the A2 and I (Quarterly) Income Units and A2 Income Plus (Quarterly) Unit Classes.

The Post Short Duration High Yield Fund declare and pay quarterly distributions to Unitholders holding the A, A2 and I Income Unit Classes.

The Finisterre Unconstrained Emerging Markets Fixed Income Fund declare and pay quarterly distributions to Unitholders holding the A, A2, I, I2, I3, D, F, N Income Unit and A2 and P2 Income Plus Unit Classes.

The Finisterre VAG Unconstrained EM Fixed Income Fund declare and pay quarterly distribution to Unitholders holding the I2 Income Unit Class.

The Finisterre Emerging Markets Debt Euro Income Fund declare and pay quarterly distribution to Unitholders holding the N Income Unit Class.

The Asian High Yield Fund declare and pay quarterly distributions to Unitholders holding the I2 and A2 Income Unit Classes.

The China Opportunities Equity Fund declare and pay quarterly distributions to Unitholders holding the A Income Unit Class.

The Preferred Securities Fund declare and pay monthly distributions to Unitholders holding the D2 Income Unit and D2 Income Plus Unit Classes.

The Global High Yield Fund declare and pay monthly distributions to Unitholders holding the D2 Income Plus Unit Class.

for the period ended 31 March 2022 (continued)

### 2. PRINCIPAL ACCOUNTING POLICIES (continued)

### **Distributions (continued)**

The Global Property Securities Fund declare and pay monthly distributions to Unitholders holding the D2 Income Unit Class.

The Post Short Duration High Yield Fund declare and pay monthly distributions to Unitholders holding the D2 Income Unit and D2 Income Plus Unit Classes.

The Global Diversified Income Fund declare and pay monthly distributions to Unitholders holding the D Income Unit and D Income Plus Unit Classes.

The Asian High Yield Fund declare and pay monthly distributions to Unitholders holding the D2 Income Unit and D2 Income Plus Unit Classes.

There are no D2 Income Unit Classes in issue currently on the Finisterre Unconstrained Emerging Markets Fixed Income Fund.

Monthly distributions will also be payable in respect of the N2 Income Unit Class on the Preferred Securities Fund. There are no N2 Income Unit Classes on the Preferred Securities Fund.

There were distributions out of capital of \$451,881 (30 September 2021: \$317,410) during the period under review.

Upon the expiry of the period of six years after the relevant Distribution Date, the Holder and any person claiming through, under or in trust for him shall forfeit any right to any distribution not paid, and such amount shall become part of the relevant Fund.

Distributions are recorded by each Fund on ex-dividend date in the Statement of Comprehensive Income.

#### Offsetting

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to set-off the recognised amounts and there is an intention to settle on a net basis, or minimise the assets and settle the liability simultaneously. No offsetting has taken place during the period ended 31 March 2022 and financial year ended 30 September 2021.

### **Participating Units**

All participating units issued by the Funds provide the investors the right to acquire redemptions for cash at the value proportionate to the investor's share in the Fund's net assets at the redemption date. Such instruments give rise to a financial liability for the present value of the redemption amount. In accordance with the issued prospectus the Funds are contractually obliged to redeem units at the traded Net Asset Value per unit which is calculated at each valuation point.

### **Redeeming Units**

When a redemption request has been submitted by a Unitholder who is or is deemed to be an Irish resident, or is acting on behalf of an Irish resident, the Manager shall deduct from the redemption proceeds an amount which is equal to the tax payable by the Unit Trust to the Revenue Commissioners in Ireland in respect of the relevant transaction.

#### 3. TAXATION

Under current law and practice the Trust qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis, it is not chargeable to Irish tax on its income or gains.

However, Irish tax may arise on the happening of a "chargeable event". A chargeable event includes any distribution payments to Unitholders, any encashment, redemption, cancellation, repurchase or transfer of units and any deemed disposals of units as described below for Irish tax purposes arising as a result of holding units in the Trust for a period of eight years or more. Where a chargeable event occurs, the Trust is required to account for the Irish tax thereon.

for the period ended 31 March 2022 (continued)

### 3. TAXATION (continued)

No Irish tax will arise on the Trust in respect of chargeable events in respect of:

- (i) a Unitholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Trust or the Trust has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations; and
- (ii) certain exempted Irish tax resident Unitholders who have provided the Trust with the necessary signed statutory declarations.

Dividends, interest and capital gains (if any) received on investments made by the Trust may be subject to taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Trust or its Unitholders.

#### 6. DISTRIBUTIONS

### For the period ended 31 March 2022

Interim Distributions were declared on 1 April 2022 and 1 April 2021 respectively. Distributions declared on 1 April 2022 or nearest subsequent business day have not been included in the Statement of Comprehensive Income for 31 March 2022. These will be included in the financial statements for 30 September 2022. The A Income Unit Classes from the Global Responsible Equity Fund did not declare and pay any interim distributions for the period ended 31 March 2022 or 31 March 2021. Distributions declared on 1 April 2022 relate to 31 March 2022 distributions in the table below.

#### **Accumulation Classes**

The Accumulation Unit Classes did not declare Distributions on 31 March 2022 or 31 March 2021.

²Post Global Limited Term High Yield Fund name changed to Post Short Duration High Yield Fund on 1 March 2022

for the period ended 31 March 2022 (continued)

#### 7. SIGNIFICANT CONTRACTS AND TRANSACTIONS WITH RELATED PARTIES

#### Management Fee

Pursuant to the Trust Deed dated 13 October 1992, Principal Global Investors (Ireland) Limited ("the Manager") acts as Manager to the Trust and is responsible for its management and administration. For services rendered, the Trust will pay to the Manager an annual fee, accrued daily in the unit price and payable monthly in arrears. The Management Fee is currently calculated as a percentage of the NAV of each Fund and is accrued every Business Day. These related party transactions have been entered into in the ordinary course of business. The Management Fee expense is shown in the Statement of Comprehensive Income and the accrued amount is shown in the Statement of Financial Position. Management Fee rates for each unit class are listed in the supplement for each Fund. These are available from the www.principalglobal.com website.

### **Expense Cap**

The Manager, at its discretion, may absorb (directly by waiving a portion of its fees or by reimbursement to the account of each Fund), certain additional fees, costs or expenses for each Fund that may arise in respect of the management and operation of the Trust attributable to each Fund. This Expense Cap fee is shown as Rebate/Recharge to the Fund due to capping in the Statement of Comprehensive Income and the accrual/prepaid amount is shown as part of Other Assets or Other Payables in the Statement of Financial Position.

### **Administration Fee**

In addition to the Management Fee, the Trust Deed permits the Manager to charge an Administration Fee of up to 0.15% per annum of the value of the units in the Funds for administering the Trust. Currently the Manager only charges this fee on the NAV of the Funds attributable to A, D, F and N Class units. This fee is calculated as a percentage of the NAV of each Fund attributable to A, D, F and N Class Units and is accrued every Business Day. The total accrued amount is paid monthly in arrears. All fees and expenses payable to the Administrator in respect of the administration services it provides to the Manager will be met by the Manager. Administration Fee expense is shown in the Statement of Comprehensive Income and the accrued amount is shown in the Statement of Financial Position.

## **Trustee and Depositary fee**

The Manager appointed The Bank of New York Mellon SA/NV, Dublin Branch to act as the Trustee to the Trust. The principal activity of the Trustee is to act as the Depositary and Trustee of the assets of collective investment schemes ("CISs"). The Trustee may retain for its own use out of each Fund a fee of up to 0.022% per annum of the NAV of the units calculated on each Business Day during the month, accrued and deducted from the Fund the following month - subject to a minimum fee of US\$15,000 per annum which may be waived. The fee currently charged by the Trustee per Fund is disclosed in the relevant supplement for each Fund. The Trustee Fee expense is shown in the Statement of Comprehensive Income and the accrued amount is shown in the Statement of Financial Position.

### **Directors' Remuneration**

Mr. David Shubotham up until his resignation from the Principal Global Investors (Ireland) Board on 1 December 2021, Mr. John O'Connell, Ms. Bronwyn Wright and Mr. Jim Firn are independent non-executive Directors of the Manager and have no executive function with the Investment Adviser or its related party companies. The Manager pays each independent non-executive Director an annual fee of €25,000 for their services rendered to the Trust. Mr. Joel Pitz, Mr. Kamal Bhatia and Ms. Barbara Wenig are related parties to the Investment Adviser and are not entitled to receive any compensation from the Trust.

### **Sub-Custody Fee**

The Depositary will be paid a fee at normal commercial rates and such fee shall be paid out of the Fund. The level of Sub-Custodians Fees and expenses will vary depending on the investment profile of the Fund including, in particular, the nature of the securities markets in which the Fund invests, the size of the Fund and the amount of trading in the assets of the Fund. Such fees will be charged at normal commercial rates and will only be reimbursed from a Fund where they are less than 0.50% per annum of the NAV of the Fund. The Manager will pay any fees that exceed this level. Depositary Fee expense is shown in the Statement of Comprehensive Income and the accrued amount is shown in the Statement of Financial Position.

for the period ended 31 March 2022 (continued)

# 7. SIGNIFICANT CONTRACTS AND TRANSACTIONS WITH RELATED PARTIES (continued)

#### **Performance Fees**

There are no performance fees on any of the Funds for the period ended 31 March 2022 or for the year ended 30 September 2021.

### **Audit Fees**

The audit fee charged for the period ended 31 March 2022 was \$138,124 excluding VAT (31 March 2021 \$115,533 excluding VAT).

#### 9. EFFICIENT PORTFOLIO MANAGEMENT

The Funds are denominated in USD, except for Finisterre Emerging Markets debt Euro Income Fund which is denominated in Euro, but purchase assets denominated in a range of currencies. During the period, transactions were entered into which are economically appropriate to the reduction of relevant risks or costs to improve investment performance.

Subject to the conditions and within the limits from time to time laid down by the Central Bank, and except as otherwise stated in the investment objective and policies of a Fund, the Investment Adviser and/or Sub-Investment Adviser(s) may employ, for certain Funds, investment techniques and instruments such as futures, forward foreign currency exchange contracts, currency swaps, credit default swaps, total return swaps, options, equity options, warrants and other derivatives for Efficient Portfolio Management ("EPM") purposes if deemed advisable by the Investment Adviser/Sub-Investment Adviser(s). Furthermore, new techniques and instruments may be developed which may be suitable for use by a Fund in the future, and a Fund may employ such techniques and instruments subject to the prior approval of, and any restrictions imposed by, the Central Bank.

For UCITS which have engaged in EPM techniques, certain disclosures are required under Chapter 4 of the Central Bank UCITS Regulations. The Investment Advisers of the Funds have identified all Financial Derivative Instruments (FDIs) which are used for EPM. A UCITS is required to disclose the revenues arising from EPM techniques for the entire reporting period together with the direct and indirect operational costs and fees incurred.

The Funds may also where indicated in the relevant supplement, enter into repurchase, reverse repurchase, sale and buyback agreements and stock lending agreements. The Investment Adviser/Sub-Investment Adviser(s) considers only repurchase agreements, reverse repurchase agreements and securities lending to be EPM techniques. None of the Funds held repurchase agreements, reverse repurchase agreements or took part in securities lending as at 31 March 2022 or at 30 September 2021.

Details of all open transactions at the period end are disclosed in the Portfolios of Investments.

#### 10. DEALING COMMISSION ARRANGEMENTS

The Investment Adviser appointed in relation to each Fund is responsible for the selection of brokers with whom they deal. In relation to certain equity funds, the Investment Adviser/Sub-Investment Adviser(s) have entered into dealing commission arrangements with brokers whereby they obtain services or benefits from them, or from third parties – which are paid for out of commissions charged to the Funds. Such services or benefits relate primarily to research and portfolio management, and ensuring their purchase is compliant with relevant local regulation; including being a permitted service. The relevant Investment Adviser/Sub Investment Adviser(s) are satisfied that trades generating soft commissions comply with the relevant local regulations requiring best execution – which requires consideration of relevant factors, including price and execution quality.

<sup>&</sup>lt;sup>2</sup>Global Sustainable Listed Infrastructure Fund launched on 15 November 2021.

<sup>&</sup>lt;sup>3</sup>Global Equity Fund name changed to Global Responsible Equity Fund on 16 December 2021.

<sup>&</sup>lt;sup>4</sup>Post Global Limited Term High Yield Fund name changed to Post Short Duration High Yield Fund on 1 March 2022.

for the period ended 31 March 2022 (continued)

#### 11. FINANCIAL RISK MANAGEMENT

#### Financial Assets at Fair Value through Profit or Loss

Under FRS 102, the Trust is required to classify fair value measurement using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1: The unadjusted quoted price in an active market for identical assets or liabilities that the entity can access at the measurement date.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable (i.e. developed using market data) for the asset or liability, either directly or indirectly.
- Level 3: Inputs are unobservable (i.e. for which market data is unavailable) for the asset or liability.

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

"FRS 102 - Fair value hierarchy disclosures" require disclosure of financial instruments held at fair value on the basis of a fair value hierarchy consistent with EU-adopted IFRS based on Level 1, 2 and 3 classifications. The financial statements and comparatives have been prepared in accordance with these amendments and fair value measurement is categorised based on Levels 1, 2 and 3.

The fair value of securities held in Level 3 for the period ended 31 March 2022 was USD 9,942 (30 September 2021: USD 24,843).

The tables below and overleaf analyse the financial assets of each Fund against the fair value hierarchy and measures them at fair value for 31 March 2022 and 30 September 2021 in accordance with FRS 102.

### 13. GLOBAL EXPOSURE

Investment Adviser/Sub-Investment Adviser(s) employ a documented Risk Management Process in relation to the use of FDIs, which ensures the risk associated with the positions is measured, monitored and managed. In respect of the Finisterre Unconstrained Emerging Markets Fixed Income Fund; Finisterre Unconstrained VAG Unconstrained EM Fixed Income Fund and Finisterre Emerging Markets Debt Euro Income Fund; an Absolute VaR Approach, based on a confidence level of 99% for a daily horizon and considering at least two years of historical data is used to manage risk. In relation to the remaining Funds, the Commitment approach is used; which entails monitoring global exposure and counterparty exposure associated with the positions.

- Effective from 16 December 2021, Global Equity Fund was renamed to Global Responsible Equity Fund on 16 December 2021.
- Effective from 16 December 2021, Global Equity Fund was renamed Global Responsible Equity Fund and classified as an ESG Orientated Fund under SFDR.
- Effective from 16 December 2021, Preferred Securities Fund was classified as an ESG Oriented Fund under SFDR.
- New supplement was issued for the European Equity Fund on 14 February 2022.
- New supplement was issued for the Post Short Duration High Yield Fund on 1 March 2022.
- Effective from 1 March 2022, Post Global Limited Term High Yield Fund was renamed to Post Short Duration High Yield Fund and classified as an ESG Orientated Fund under SFDR.

#### **Other Events**

- Barbara Wenig was appointed as a director of Principal Global Investors (Ireland) Limited on 19 October 2021.
- David Shubotham (independent non-executive director) resigned from the Board of Principal Global Investors (Ireland)
   Limited on 1 December 2021.
- The invasion of Ukraine by Russia on 24 February 2022 has created extensive uncertainty on the political and economic front. Market analysts are reworking expectations for inflation and interest rate policy as they assess the effects of the conflict. The geopolitical conflict is also challenging the western world, which will likely result in a rethinking of Europe's dependency on Russian oil and gas. The longer-term impact on economies, markets, industries and individual issuers, are not yet known. The Trust continues to monitor the situation closely.
- During the financial period, COVID-19 continued to spread around the world, however the global rollout of various vaccines contributed to the reopening of many economies and restrictions being lifted. COVID-19 did not have a significant adverse impact on the net asset value of the Funds during the six month period ended 31 March 2022.

There have been no other significant events affecting the Funds during the period ended 31 March 2022.

for the period ended 31 March 2022 (continued)

#### 16. SIGNIFICANT EVENTS AFTER THE PERIOD END

- Effective from 27 April 2022, Asian High Yield Fund was classified as an ESG Orientated Fund under SFDR.
- Since the period end, there has been a resurgence in coronavirus infections, however, most economies remain open, and the reintroduction of restrictions have been limited. The ultimate economic effect of the pandemic and the long-term impact on economies, markets, industries, and individual issuers, are not known. The Manager continues to analyse the evolving economic, political and market landscape.
- Global Diversified Income Fund is expected to close during 2022.

There have been no other significant events affecting the Funds after the period ended 31 March 2022.

#### 17. APPROVAL OF FINANCIAL STATEMENTS

The Financial Statements were approved by the Board of Directors of the Manager on 17 May 2022.
