

BlackRock US Government Mortgage Impact Fund A2

USD

FEBRUARY 2023 FACTSHEET

Performance, Portfolio Breakdowns and Characteristics, and Net Assets as at 28-Feb-2023. All other data as at 06-Mar-2023.

IMPORTANT:

- The Fund invests in asset/ mortgage backed securities that may be subject to greater credit, liquidity, and interest rate risks and are often exposed to extension and prepayment risks. Use of environmental, social and governance ("ESG") criteria as the investing principles may impact the Fund's performance. Reliance on third party data may lead to incorrect evaluation of a security or issuer based on ESG criteria. There may also be a risk of incorrectly applying the relevant ESG criteria on the Fund. The evaluations from the Investment Advisor may be affected due to a lack of universal taxonomy or international recognized quantitative criteria to objectively measure "social and / or environmental impact". Issues of securities with an outlook to create a positive social and/or environmental impact may not always be profit-oriented. The Fund's investment decision making process may be challenged by the continued evolutions of "social and / or environmental impact" concept in connection with political priorities and preferences, and market's demands. The Fund may invest in debt securities that are subject to actual or perceived ratings downgrade. An increase in interest rates may adversely affect the value of the bonds held by the Fund. The Fund invests in bonds issued or guaranteed by governments or authorities, which may involve political, economic, default or other risks. The Fund's income-generating investment strategy may reduce the potential for capital growth and future income of the Fund.
- The Fund is subject to currency risk, delayed delivery transactions risk, geographical concentration risk in the US and securities lending counterparty risk.
- The Fund may use derivatives for hedging and extensively for investment purposes. Risks associated with derivatives include counterparty/credit, liquidity, valuation, volatility and market risks. The Fund's volatility may increase or decrease from its derivative usage, and may suffer losses.
- The value of the Fund can be volatile and can go down substantially within a short period of time. It is possible that a certain amount of your investment could be lost.
- Investors should not make investment decisions based on this document alone. Investors should refer to the Prospectus and Key Facts Statement for details including risk factors.

INVESTMENT OBJECTIVE

The US Government Mortgage Impact Fund seeks a high level of income. The Fund invests at least 80% of its total assets in fixed income transferable securities issued or guaranteed by the United States Government which have a positive social and/or environmental impact. The Fund may invest in fixed income transferable securities issued or guaranteed by the United States Government, its agencies or instrumentalities, including Government National Mortgage Association ("GNMA") mortgage-backed certificates and other US Government securities representing ownership interests in mortgage pools, such as mortgage-backed securities issued by Fannie Mae and Freddie Mac which have social and/or environmental impact characteristics that the Investment Adviser has at its discretion deemed to be impactful, including (without limitation) rural housing, manufactured housing, housing pools issued by State Housing Finance Authorities and bespoke impact MBS pools.

GROWTH OF 10,000 FOR PAST 10 YEARS

These figures show as a NAV change of the Fund based on a hypothetical 10,000 investment in the share class.

CUMULATIVE PERFORMANCE (%)

	3 mths	6 mths	YTD	1 Year	2 Years	3 Years	5 Years	Since Launch
Share Class	0.11	-4.15	-0.17	-10.55	-14.38	-11.49	-3.68	405.45

CALENDAR YEAR PERFORMANCE (%)

	2022	2021	2020	2019	2018
Share Class	-13.19	-1.82	5.07	6.41	-0.80

Share class performance is calculated on a Net Asset Value (NAV) basis, with income reinvested, net of fees. Performance is calculated in the relevant share class currency, including ongoing charges and taxes and excluding subscription and redemption fees, if applicable. Benchmark performance displayed in denominated currency and for comparative purpose only. Source: BlackRock. **Past performance is not a guide to future performance and should not be the sole factor of consideration when selecting a product.** Investors may not get back the full amount invested.

Management Fee (incl. Distribution Fee, if any)	0.75%
Performance Fee	0.00%

For Fee details, please refer to the Fund Prospectus.

MATURITY BREAKDOWN (%)

Negative weightings may result from specific circumstances (including timing differences between trade and settle dates of securities purchased by the funds) and/or the use of certain financial instruments, including derivatives, which may be used to gain or reduce market exposure and/or risk management. Allocations are subject to change.

Due to rounding, the total may not be equal to 100%

CREDIT RATINGS (%)

The fund itself has not been rated by an independent rating agency. Credit quality ratings on underlying securities of the fund are received from S&P, Moody's and Fitch. This breakdown is provided by BlackRock and takes the middle rating of the agencies when all three agencies rate a security the lower of the two ratings if only two agencies rate a security and one rating if that is all that is provided. Unrated securities do not necessarily indicate low quality. Ratings and portfolio credit quality may change over time.

On 16 September 2021, the Fund name was changed from BlackRock US Government Mortgage Fund to BlackRock US Government Mortgage Impact Fund. The Benchmark changed from FTSE Mortgage Index to Bloomberg Barclays US MBS Index. The performance of the benchmark prior to 16 September 2021 is that of FTSE Mortgage Index. The Fund changed its investment policy on 16 September 2021. Prior to this performance of the Fund was achieved under circumstances that no longer apply.

Unless otherwise specified, all information as of the month end. Sources: BlackRock and Morningstar. Performance is shown as of the month end in share class currency on a NAV to NAV price basis with income reinvested, net of fees. The above Fund data is for information only and does not constitute an offer or invitation to anyone to invest in any BlackRock Global Funds (BGF) and has not been prepared in connection with any such offer. BGF is an open-ended investment company established in Luxembourg which is available for sale in certain jurisdictions only. BGF is not available for sale in the U.S. or to U.S. persons. Product information concerning BGF should not be published in the U.S. Investment involves risk. Past performance is not necessarily a guide to future performance or returns. The value of investments and the income from them can fluctuate and is not guaranteed. Rates of exchange may cause the value of investments to go up or down. Investors may not get back the amount they invest. Individual stock price/figure does not represent the return of the Fund. The investment returns are denominated in share class dealing currency, which may be a foreign currency. If so, US/HK dollar-based investors are therefore exposed to fluctuations in the US/HK dollar/foreign currency exchange rate. For Hong Kong investors, please refer to the BGF offering documents for details, including risk factors. Issued by BlackRock Asset Management North Asia Limited. SUSTAINABILITY CHARACTERISTICS

Sustainability Characteristics can help investors integrate non-financial, sustainability considerations into their investment process. These metrics enable investors to evaluate funds based on their environmental, social, and governance (ESG) risks and opportunities. This analysis can provide insight into the effective management and long-term financial prospects of a fund.

The metrics below have been provided for transparency and informational purposes only. The existence of an ESG rating is not indicative of how or whether ESG factors will be integrated into a fund. The metrics are based on MSCI ESG Fund Ratings and, unless otherwise stated in fund documentation and included within a fund's investment objective, do not change a fund's investment objective or constrain the fund's investable universe, and there is no indication that an ESG or Impact focused investment strategy or exclusionary screens will be adopted by a fund. For more information regarding a fund's investment strategy, please see the fund's prospectus.

MSCI ESG Fund Rating (AAA-CCC)	A	MSCI ESG Quality Score (0-10)	6.16
MSCI ESG Quality Score - Peer Percentile	39.88%	MSCI ESG % Coverage	85.14%
Fund Lipper Global Classification	Bond Global USD	MSCI Weighted Average Carbon Intensity (Tons CO2E/\$M SALES)	311.11
Funds in Peer Group	341		

All data is from MSCI ESG Fund Ratings as of **21-Nov-2022**, based on holdings as of **30-Jun-2022**. As such, the fund's sustainable characteristics may differ from MSCI ESG Fund Ratings from time to time.

To be included in MSCI ESG Fund Ratings, 65% of the fund's gross weight must come from securities covered by MSCI ESG Research (certain cash positions and other asset types deemed not relevant for ESG analysis by MSCI are removed prior to calculating a fund's gross weight; the absolute values of short positions are included but treated as uncovered), the fund's holdings date must be less than one year old, and the fund must have at least ten securities. For newly launched funds, sustainability characteristics are typically available 6 months after launch.

ESG GLOSSARY:

MSCI ESG Fund Rating (AAA-CCC): The MSCI ESG Rating is calculated as a direct mapping of ESG Quality Scores to letter rating categories (e.g. AAA = 8.6-10). The ESG Ratings range from leader (AAA, AA), average (A, BBB, BB) to laggard (B, CCC).

MSCI ESG Quality Score - Peer Percentile: The fund's ESG Percentile compared to its Lipper peer group.

Fund Lipper Global Classification: The fund peer group as defined by the Lipper Global Classification.

Funds in Peer Group: The number of funds from the relevant Lipper Global Classification peer group that are also in ESG coverage.

MSCI ESG Quality Score (0-10): The MSCI ESG Quality Score (0 - 10) for funds is calculated using the weighted average of the ESG scores of fund holdings. The Score also considers ESG Rating trend of holdings and the fund exposure to holdings in the laggard category. MSCI rates underlying holdings according to their exposure to industry specific ESG risks and their ability to manage those risks relative to peers.

MSCI ESG % Coverage: Percentage of the fund's holdings for which the MSCI ESG ratings data is available. The MSCI ESG Fund Rating, MSCI ESG Quality Score, and MSCI ESG Quality Score - Peer Percentile metrics are displayed for funds with at least 65% coverage.

MSCI Weighted Average Carbon Intensity (Tons CO2E/\$M SALES): Measures a fund's exposure to carbon intensive companies. This figure represents the estimated greenhouse gas emissions per \$1 million in sales across the fund's holdings. This allows for comparisons between funds of different sizes.

MSCI Weighted Average Carbon Intensity % Coverage: Percentage of the fund's holdings for which MSCI Carbon Intensity data is available. The MSCI Weighted Average Carbon Intensity metric is displayed for funds with any coverage. Funds with low coverage may not fully represent the fund's carbon characteristics given the lack of coverage.
