- 1 Manulife Advanced Fund SPC - Renminbi Bond Segregated Portfolio (the "Fund"), which is a bond fund denominated in USD only and not in RMB, uses the QFII regime, the Bond Connect and/or the Foreign Access Regime to primarily invest directly in RMB-denominated debt instruments. There are various requirements and restrictions under the laws of Mainland China and regulations relating to investment via QFII regime and/or China Interbank Bond Market that may expose the Fund to higher volatility, liquidity, emerging market and Mainland China tax and custodial risks.
 - 3 The Fund may invest in convertible bonds which are subject to risks typical to bonds and equity securities, and may expose the investor to greater volatility, credit, interest rate changes and counterparty risks.
 - 4 In the worst case scenario, the Fund may suffer significant loss potentially equal to all their investments in Mainland China domestic securities.
 - 5 Investment involves risk. Investors should not invest solely based on this material and should read the offering document for details including the risk factors, charges and features of the Fund.
