Allianz Global Investors Fund  
A / AT

- The Fund is exposed to significant risks of investment/general market, country and region, emerging market, company-specific, currency (such as exchange controls, in particular RMB), and the adverse impact on RMB share classes due to currency depreciation. The Fund may invest in the China A-Shares market via the Stock Connect and/or indirectly through all eligible instruments and thus is subject to the associated risks (including quota limitations, trade restrictions, clearing and settlement, China market volatility and uncertainty, change in economic, social and political policy in PRC and taxation risks).
- The Fund may invest in financial derivative instruments ("FDI") which may expose to higher leverage, counterparty, liquidity, valuation, volatility, market and over the counter transaction risks. The Fund's net derivative exposure may be up to 50% of the Fund's net asset value.
- This investment may involve risks that could result in loss of part or entire amount of investors' investment.
- In making investment decisions, investors should not rely solely on this material.
- **Note:** Dividend payments may, at the sole discretion of the Investment Manager, be made out of the Fund's capital or effectively out of the Fund's capital which represents a return or withdrawal of part of the amount investors originally invested and/or capital gains attributable to the original investment. This may result in an immediate decrease in the NAV per share and the capital of the Fund available for investment in the future and capital growth may be reduced, in particular for hedged share classes for which the distribution amount and NAV of any hedged share classes (HSC) may be adversely affected by differences in the interests rates of the reference currency of the HSC and the base currency of the Fund.

Overall Morningstar Rating™
