

Invesco Japanese Equity Advantage Fund

30 April 2022

Morningstar Rating™
★★★★

Important Information

- The Fund invests primarily in the equity securities of companies domiciled in or exercising the predominant part of their economic activity in Japan and which are listed on any exchanges or over-the-counter markets.
- Investors should note the concentration risk of investing in the equity securities of companies domiciled in or exercising the predominant part of their economic activity in Japan, currency exchange risk, equities risk, volatility risk, and general investment risk.
- Financial derivative instruments (FDI) may be used for efficient portfolio management purposes or to hedge or reduce the overall risk of investments. Risks associated with FDI include counterparty/credit risk, liquidity risk, valuation risk, volatility risk and over-the-counter transaction risk. The leverage element/component of a FDI can result in a loss significantly greater than the amount invested in the FDI by the Fund. Exposure to FDI may lead to a high risk of significant loss by the Fund.
- The value of the Fund can be volatile and could go down substantially.
- Investors should not base their investment decision on this material alone.

Objectives and investment strategy

The investment objective of the Fund is to seek long-term capital appreciation, measured in Yen, through investment primarily (at least 70% of the net asset value of the Fund) in the equity securities of companies domiciled in or exercising the predominant part of their economic activity in Japan and which are listed on any exchanges or over-the-counter markets. The Fund will invest in companies who make advantageous use not only of their capital but also of their intangible assets (for example, but not limited to, brand values, technical development or strong customer base). The Fund may also invest, on an ancillary basis, in debt securities convertible into common shares and other equity linked instruments.

Invesco's Commitment to ESG Investing

At Invesco, we've been implementing ESG strategies for more than 30 years, with an approach that is both investor-led and investor-driven. We integrate ESG risk and opportunity factors directly into our investment decisions across asset classes. We believe that incorporating environmental, social and governance (ESG) practices into our investment activities can positively impact the value we provide clients - and help ensure a sustainable environment for future generations.

SFDR (Sustainable Finance Disclosure Regulation)

The Fund complies with Article 8 with respect to the EU's Sustainable Finance Disclosure Regulation*. As such, the fund promotes, among other characteristics, environmental or social characteristics or a combination of those characteristics. In addition, the companies in which the fund invests follow good governance practices. *Regulation (EU) 2019/2088 on sustainability - related disclosures in the financial services sector.

Exclusion Framework

The Fund embeds an exclusionary framework to specific activities based on UN Global Compact, severe governmental sanctions, revenue thresholds for certain activities linked to environmental and/or social criteria, as well as ensuring that companies follow good governance practices. The list of activities and their thresholds are listed below:

UN Global Compact	- Non-Compliant
Country sanctions	- Severe violations
Controversial weapons	- 0% of revenue including companies involved in the manufacture of nuclear warheads or whole nuclear missiles outside of the Non-Proliferation Treaty (NPT)
Coal	- Thermal Coal extraction: >=5% of revenue - Thermal Coal Power Generation: >=10% of revenue
Unconventional oil & gas	- >= 5% of revenue on each of the following: Artic oil & gas exploration; Oil sands extraction; Shale energy extraction;
Tobacco	- Tobacco Products production: >=5% of revenue - Tobacco related products and services: >=5% of revenue
Others	- Recreational cannabis: >=5% of revenue
Good governance	- Ensure that companies follow good governance practices in the areas of sound management structures, employee relations, remuneration and tax compliance

Any investment decision should take into account all the characteristics of the fund as described in the legal documents. For sustainability related aspects, please refer to: <https://www.invescomanagementcompany.lu>.

At Invesco we have looked to put in place minimum safeguards across multiple sub-funds of Invesco Funds (as listed above) to allow them to meet Article 8 requirements of the SFDR Regulation as of 2 November 2021. To be classified as a so-called Article 8 product, the sub-funds need to promote, among other things, environmental and/or social characteristics while also ensuring that investee companies follow good governance practices. In order to meet such requirements, it was determined that we would look to exclude certain activities based on certain thresholds, which may be updated from time to time. For further details please refer to the website of the management company at <https://www.invescomanagementcompany.lu>.

As noted above this is a proprietary framework developed by Invesco in line with Article 8 requirements of the Regulation (EU) 2019/2088 on sustainability. The framework is developed, maintained and monitored by Invesco. In order to assess companies against the noted criteria, Invesco uses a combination of Sustainalytics and ISS (Institutional Shareholder Services) to assess compliance, however, this can be supplemented with other service providers where appropriate. While there is a broad coverage across the various systems, there is no one system that has complete coverage of the entire investment universe. As a result, investment teams will be responsible for conducting an assessment of companies for which data is not available, under the appropriate supervision and oversight of our investment compliance and ESG teams.
