Important Information

- The Fund invests in Asian debt securities.
- Investors should note the dynamic asset allocation risk, emerging markets risk, risk of investing in convertibles/convertible bonds/convertible debts, sovereign debt risk, concentration risk of investing in a Asian debt securities, risk of investing in perpetual bonds, risk associated with investments in debt instruments with loss-absorption features including senior non-preferred debts, contingent convertible bonds which are subject to the risk of being written down or converted to ordinary shares upon the occurrence of pre-defined trigger events and may result in a significant or total reduction in the value of such instruments, currency exchange risk, credit rating risk, portfolio turnover risk, general investment risk, and investment in bonds or other fixed income securities is subject to (a) interest rate risk (b) credit risk (including default risk, downgrading risk and liquidity risk) and (c) risks relating to high yield bonds/non-investment grade bonds and/or un-rated bonds.
- Financial derivative instruments (FDI) may be used for efficient portfolio management and hedging purpose and for investment purposes. Risks associated with FDI include counterparty/credit risk, liquidity risk, valuation risk, volatility risk and over-the-counter transaction risk. As a result of the use of FDI for investment purposes, investors should note the additional/high leverage risk.
- For certain share class(es), the Fund may at discretion pay dividend out of the capital and/or effectively out of capital amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment. Any such distributions may result in an immediate reduction of the net asset value per share in respect of such share class after the monthly distribution date. (Note 1)
- In addition, investors of Monthly Distribution-1 share class that are currency hedged (MD-1 hedged) should be aware of the uncertainty of relative interest rates. The net asset value of the MD-1 hedged may fluctuate and may significantly differ from other share class due to fluctuation of the interest rate differential between the currency in which the MD-1 hedged is denominated and the base currency of the Fund and may result in a greater erosion of capital than other non-hedged share class. (Note 2)
- The value of the Fund can be volatile and could go down substantially.
- Investors should not base their investment decision on this material alone.

Objectives and investment strategy

The objective of the Fund is to generate income and long term capital growth. The Fund seeks to achieve its objective by investing primarily in Asian debt securities, which may include investment grade, non-investment grade, unrated debt securities and convertibles.

Invesco Asian Flexible Bond Fund

30 April 2022

Invesco's Commitment to ESG Investing

At Invesco, we've been implementing ESG strategies for more than 30 years, with an approach that is both investor-led and investor-driven. We integrate ESG risk and opportunity factors directly into our investment decisions across asset classes. We believe that incorporating environmental, social and governance (ESG) practices into our investment activities can positively impact the value we provide clients - and help ensure a sustainable environment for future generations.

SFDR (Sustainable Finance Disclosure Regulation)

The Fund complies with Article 8 with respect to the EU's Sustainable Finance Disclosure Regulation*. As such, the fund promotes, among other characteristics, environmental or social characteristics or a combination of those characteristics. In addition, the companies in which the fund invests follow good governance practices. *Regulation (EU) 2019/2088 on sustainability - related disclosures in the financial services sector.

Exclusion Framework

The Fund embeds an exclusionary framework to specific activities based on UN Global Compact, severe governmental sanctions, revenue thresholds for certain activities linked to environmental and/or social criteria, as well as ensuring that companies follow good governance practices. The list of activities and their thresholds are listed below:

UN Global Compact	- Non-Compliant
Country sanctions	- Severe violations
Controversial weapons	- 0% of revenue including companies involved in the manufacture of nuclear warheads or whole nuclear missiles outside of the Non-Proliferation Treaty (NPT)
Coal	- Thermal Coal extraction: >=5% of revenue - Thermal Coal Power Generation: >=10% of revenue
Unconventional oil & gas	- >= 5% of revenue on each of the following: Arctic oil & gas exploration; Oil sands extraction; Shale energy extraction;
Tobacco	- Tobacco Products production: >=5% of revenue - Tobacco related products and services: >=5% of revenue
Others	- Recreational cannabis: >=5% of revenue
Good governance	- Ensure that companies follow good governance practices in the areas of sound management structures, employee relations, remuneration and tax compliance

Any investment decision should take into account all the characteristics of the fund as described in the legal documents. For sustainability related aspects, please refer to: <https://www.invesco.com/managementcompany.lu>.

At Invesco we have looked to put in place minimum safeguards across multiple sub-funds of Invesco Funds (as listed above) to allow them to meet Article 8 requirements of the SFDR Regulation as of 2 November 2021. To be classified as a so-called Article 8 product, the sub-funds need to promote, among other things, environmental and/or social characteristics while also ensuring that investee companies follow good governance practices. In order to meet such requirements, it was determined that we would look to exclude certain activities based on certain thresholds, which may be updated from time to time. For further details please refer to the website of the management company at <https://www.invesco.com/managementcompany.lu>.

As noted above this is a proprietary framework developed by Invesco in line with Article 8 requirements of the Regulation (EU) 2019/2088 on sustainability. The framework is developed, maintained and monitored by Invesco. In order to assess companies against the noted criteria, Invesco uses a combination of Sustainalytics and ISS (Institutional Shareholder Services) to assess compliance, however, this can be supplemented with other service providers where appropriate. While there is a broad coverage across the various systems, there is no one system that has complete coverage of the entire investment universe. As a result, investment teams will be responsible for conducting an assessment of companies for which data is not available, under the appropriate supervision and oversight of our investment compliance and ESG teams.
