- The Fund invests primarily in equity securities, which may result in increased volatility.
- The Fund may invest in smaller companies, which are likely to carry higher risks than larger companies.
- The Fund may invest in financial derivative instruments ("FDIs"). Risk associated with FDIs include counterparty/credit risk, liquidity risk, valuation risk, volatility risk and over-the-counter transaction risk. The Fund will not use FDIs extensively for investment purposes.
- The Fund may use hedging techniques to attempt to offset certain market risks but there is no guarantee that hedging techniques will fully and effectively achieve their desired result.
- Investors should not invest in the Fund solely based on the information in this document.
