

AXA WF Asian Short Duration Bonds A m USD

Important note to Hong Kong investors

- This is a sub-fund of AXA World Funds which is a Luxembourg based open-ended investment company with several separate sub-funds (individually the "Sub-Fund" and collectively the "Sub-Funds") each with different investment objectives and risks profile.
- The Sub-Fund seeks performance of your investment, in USD, from an actively managed Asian short duration bond portfolio. As such, the Sub-Fund is exposed to the risks associated with concentrating investments in the region.
- This Sub-Fund may invest in emerging market securities and therefore may involve a greater degree of risk than generally associated with similar investments in major securities markets, due to political and regulatory factors.
- This Sub-Fund may use derivative instruments and may subject the investor to additional risks including counterparty, volatility, valuation, leverage and liquidity risks.
- For the Distribution Shares, investors should be aware that dividends may be paid directly or effectively out of the Sub-Funds' capital at the Management Company's discretion. This may result in an immediate decrease in the net asset value per share of the Distribution Shares. Payment of distribution out of the Sub-Funds' capital amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment, which may further decrease the net asset value per share and may also reduce the capital available for the Sub-Funds for future investment and capital growth.
- Investors should not make investment decision on the basis of this document alone. The offering documents of the Fund should be read for further details including risk factors.

Fund Objective

The objective of the Sub-Fund is to seek performance of your investment, in USD, from an actively managed Asian short duration bond portfolio.

* For the fund launch year, performance is calculated from its share class launch date to that year end.

The figures provided relate to past months or years and past performance is not a reliable indicator as to future performance.

Performance calculations are net of management or distribution fees. Performance are shown as annual performance (365 days). Fund performance is calculated in the currency of the share on a NAV-to-NAV basis. If the fund is not priced due to a market holiday, the NAV of the latest fund's business date is taken. Dividends reinvested.

The NAV of the Sub-Fund will be published each business day in the website www.axa-im.com.hk and this website has not been reviewed by SFC.

#As the share class is newly inceptioned, this figure is an estimate only and represents the sum of the estimated ongoing expenses chargeable to this share class of the Sub-Fund expressed as an annualized percentage of this share class' estimated average net asset value. The actual figure may be different from this estimated figure and may vary from year to year.

**Annualized Yield = $[(1 + \text{Dividend Per Share} / \text{Ex-Dividend Date NAV})^{\text{Number of dividend distribution per year} - 1} \times 100]$. The annualized yield is calculated based on the latest dividend distribution, and may be higher or lower than the actual annual dividend yield. Positive distribution yield does not imply positive return. Dividend is not guaranteed. Past dividend yield is not indicative of future dividend.

Please note that a positive distribution yield does not imply a positive return. Investors should not make any investment decision solely based on information contained in the table above. You should read the relevant offering document (including the key facts statement) of the fund for further details including the risk factors.
