NAV per unit : Class A USD - USD304.95 | Class B USD - USD132.83 | Class C USD - USD16.62
Fund size : USD811.2 million

★★★★
Morningstar Rating™
As at 31-01-2024

January 2024

- Value Partners Classic Fund (The "Fund") primarily invests in markets of the Asia-Pacific region, with a Greater China focus.
- The Fund invests in China-related companies and emerging markets which involve certain risks not typically associated with investment in more developed markets, such as greater political, tax, economic, foreign exchange, liquidity and regulatory risks.
- The Fund is also subject to concentration risk due to its concentration in Asia-Pacific region, particularly China-related companies. The value of the Fund can be extremely volatile and could go down substantially within a short period of time. It is possible that the entire value of your investment could be lost.
- The Fund may also invest in derivatives which can involve material risks, e.g. counterparty default risk, insolvency or liquidity risk, and may expose the Fund to significant losses.
- In respect of the distribution units for the Fund, the Manager currently intends to make monthly dividend distribution. However, the distribution rate is not guaranteed. Distribution yield is not indicative of the return of the Fund. Distribution may be paid from capital of the Fund. Investors should note that where the payment of distributions are paid out of capital, this represents and amounts to a return or withdrawal of part of the amount you originally invested or capital gains attributable to that and may result in an immediate decrease in the value of units.
- You should not make investment decision on the basis of this material alone. Please read the explanatory memorandum for details and risk factors.

Investment objective

The Fund aims to achieve consistent superior returns through an investment discipline that places emphasis on the fundamental value of potential investments, which the Manager believes are being traded at deep discounts to their intrinsic values. The Fund will concentrate on investing in the markets of the Asia Pacific region (particularly in Greater China region) but without fixed geographical, sectoral or industry weightings.

Source: Value Partners, HSBC Institutional Trust Services (Asia) Limited, FactSet and Bloomberg, data as at the last valuation date of the month as stated above, unless stated otherwise. Performance is calculated on NAV to NAV in base currency with dividend reinvested and net of fees. All indices are for reference only. Our portfolio disclosure policy can be obtained from the Investment Manager upon request to email fis@vp.com.hk.

* © Morningstar 2024. All Rights Reserved. The information contained herein: (1) is proprietary to Morningstar and/or its content providers; (2) may not be copied or distributed; and (3) is not warranted to be accurate, complete or timely. Neither Morningstar nor its content providers are responsible for any damages or losses arising from any use of this information. 1. Index refers to Hang Seng Index (Price Return) since fund inception till 31 Dec 2004, thereafter it is the Hang Seng Index (Total Return) up to 30 Sep 2017, Hang Seng Index (Total Return) includes dividend reinvestment whereas Hang Seng Index (Price Return) does not take into account reinvestment of dividends. With effect from 1 Oct 2017, it is the MSCI Golden Dragon Index (Total Net Return), which takes into account of dividend reinvestment after deduction of withholding tax. 2. Each hedged share class will hedge the Fund's base currency back to its currency of denomination on a best efforts basis. However, the volatility of the hedged classes measured in the Fund's base currency may be higher than that of the equivalent class denominated in the Fund's base currency. The hedged classes may be suitable for investors who wish to reduce the impact of changes in exchange rates between their local currency and the Fund's base currency. 3. Investors should note that the base currency of Class "C" is in USD. The HKD is for reference only and should not be used for subscription or redemption purpose. Conversion to the base currency of Class "C" will normally take place at the prevailing rate (as determined by the Fund's Trustee or Custodian) on the corresponding fund dealing day. Investor should be aware of possible risks resulting from fluctuations of exchange rates against USD. 4. As dividends may be paid out from capital, this may result in an immediate decrease in the NAV per share/unit and may reduce the capital available for the Fund for future investment and capital growth. Distributions are not guaranteed and may fluctuate. Past distributions are not necessarily indicative of future trends, which may be lower. Distribution payouts and its frequency are determined by the manager. The payment of distributions should not be confused with the Fund's performance, rate of return or yield. Positive distribution yield does not imply positive return. Annualized yield of MDis Class is calculated as follows: (Latest dividend amount/NAV as at ex-dividend date) x 12. Please refer to the offering document further details including the distribution policy. 5. Classification is based on Global Industry Classification Standard (GICS). 6. Exposure refers to net exposure (long exposure minus short exposure). Derivatives e.g. index futures are calculated based on P/L instead of notional exposure. 7. Volatility is a measure of the theoretical risk in terms of standard deviation, based on monthly return over the past 3 years. 8. Cash includes receivables and payables (except cash for collaterals and margins). 9. Performance fee will only be charged if at the end of the financial year the NAV (before deduction of performance fee and relevant distributions) exceeds the "high watermark", which is the all-time year-end high of the Fund's NAV for the accumulation classes (and dividend adjusted equivalent for distribution paying classes). If in any one year, the Fund suffers a loss, no performance fee can be charged in subsequent years until the loss is recovered fully (the high-on-high principle). 10. The award is presented to fund products, fund management institutions, and related fund managers who have raised capital from both public and private overseas sectors. The award honors the long-term and stable performance profitability of institutions and fund managers, while also taking into account the fund performance and risk management capability of fund institutions and fund managers in the medium to long-term (one to three years). 11. The award reflects performance up to 30 Sep 2018. 12. The award reflects performance up to 31 Dec 2017. 13. For Hong Kong investors only.

Investors should note investment involves risk. The price of units may go down as well as up and past performance is not indicative of future results. Investors should read the explanatory memorandum for details and risk factors in particular those associated with investment in emerging markets. Information in this report has been obtained from sources believed to be reliable but Value Partners Hong Kong Limited does not guarantee the accuracy or completeness of the information provided by third parties. Investors should seek advice from a financial adviser before making any investment. In the event that you choose not to do so, you should consider whether the investment selected is suitable for you.

For Singapore investors: The Fund is registered as a restricted foreign scheme in Singapore and will only be distributed to (i) institutional investors and (ii) accredited investors and certain other persons in Singapore in accordance with section 304 and 305 of the Securities and Futures Act.
