

Aberdeen Standard SICAV I - UK Equity Fund

A Acc GBP

Performance Data and Analytics to 30 September 2019

Important Information

- The Fund invests in equities and equity-related securities of companies registered in or conducting the bulk of their business activities in the United Kingdom.
- The Fund's exposure to a single country market increases potential volatility.
- Investment in this fund may involve a high degree of risk and may not be suitable for all investors. It is possible that the entire value of the investment could be lost.
- Investors are responsible for their investment decisions and should ensure that the intermediary has advised on fund's suitability and consistency with their investment objective. If in doubt, please seek independent financial and professional advice.
- Investors should not invest in this Fund based solely on this document and should read the relevant offering documents (particularly the investment policies and risk factors) for more details before investing.

Investment objective

To achieve long-term total return by investing at least two-thirds of the Fund's assets in equities and equity-related securities of companies with their registered office in the United Kingdom; and/or, companies which have the preponderance of their business activities in the United Kingdom; and/or, holding companies that have the preponderance of their assets in companies with their registered office in the United Kingdom.

Source: Lipper. Calculation basis: total return, NAV to NAV, in GBP, net of annual charges, gross income/dividend reinvested. These figures do not include an initial charge; if this is paid, it will reduce performance from that shown. Past performance is not a guide to future performance. On 1 October 2008, the fund name has been changed from Aberdeen Standard SICAV I - UK Opportunities Fund to Aberdeen Standard SICAV I - UK Equity Fund.

*The Aberdeen International UK Opportunities Fund (AIUKOF) established on 26 April 1988 has been merged into Aberdeen Standard SICAV I - UK Opportunities Fund (AGUKOF) on 24 March 2006. Performance prior to the merger date belongs to the AGUKOF. The investment objectives of the AIUKOF and AGUKOF are substantially the same and managed by the same management team with similar investment policies and fee structure.

Please note the risk analytics figures are calculated on gross returns whereas the performance figures are based on net asset value (NAV) returns. In addition, the risk analytics figures lag the performance figures by one month. It should be noted that the figures provided regarding risk would be adjusted if fund fees and expenses were included.

Standard deviation measures historical volatility. Beta is a measure of the volatility of a portfolio in comparison to a benchmark index. Sharpe ratio measures risk-adjusted performance.

Tracking error measures the divergence between the price behavior of a position or a portfolio and the price behavior of a benchmark.
