Dividend policy*: Class A-ACC, Class A-ACC (hedged), Class Y-ACC, Class Y-ACC (hedged)
No dividends will be paid for accumulating shares. All interest and other income earned on the investment will be retained in the fund.

Class A-MINCOME(G) & Class A-MINCOME(G) (hedged)[#]
Subject to the Board's discretion, dividends will be declared monthly normally on the first business day of each month and will be paid accordingly. The Board expects to recommend distribution of substantially the whole gross investment income amount for most of the time, and distributions may be paid out of capital.

Class A-HMDIST(G) (hedged)[#]
Subject to the Board's discretion, dividends will be declared monthly normally on the first business day of each month and will be paid accordingly. Such distributions may include a premium when the interest rate of the hedged currency is higher than the fund's reference currency interest rate and may be discounted when the interest rate of the hedged currency is lower than the fund's reference currency interest rate. The Board expects to recommend distribution of substantially the whole gross investment income, and may determine the extent dividends may be paid out of realised and unrealised capital gains as well as capital.

Class A-MCDIST(G)[#]
Subject to the Board's discretion, dividends will be declared monthly normally on the first business day of each month and will be paid accordingly. The Board expects to recommend distribution of substantially the whole gross investment income, and distributions will also be paid out of capital in order to seek to achieve a distribution percentage higher than that of the MINCOME share class.

[#] Investors should note that as fees and expenses may be charged to capital of the fund, this will result in an increase in distributable income for the payment of dividends. The fund may therefore pay dividend directly out of capital and/or effectively out of capital. Such payment of dividends out of capital represents a return or withdrawal of part of the amount originally invested or from any capital gains attributable to the original investment. Such distributions may result in an immediate decrease in the net asset value per Share of the fund.

* Unless otherwise stated, dividends will not be paid out of capital and/or effectively out of capital.

Financial year end of this fund: 30 April

Minimum investment:	<u>Initial Investment</u>	<u>Subsequent Investment</u>
Class A	USD 2,500	USD 1,000
Class Y	USD 2,500	USD 1,000

What is this product?

Fidelity Funds is an open-ended investment company established in Luxembourg and regulated by the Commission de Surveillance du Secteur Financier (CSSF).

Objectives and investment policy

- The fund is an Equity fund and aims to achieve income and long-term capital growth principally (i.e. at least 70% (and normally 75%) of the fund's assets) through investments in income producing equity securities globally.
- For the remaining assets, the Investment Manager has the freedom to invest outside the fund's principal geographies, market sectors, currency or asset classes. As this fund may invest globally, it may be exposed to countries considered to be emerging markets.
- As the fund may invest globally, it may invest across different countries and regions. It is unconstrained in the amount it may invest in any single country or region.
- In selecting securities for the fund, several factors are considered in the investment process; for example, consideration may include, but is not limited to, a company's financials, including revenue and profit growth, return on capital, cash flows and other financial measures. In addition, company management, industry and economic environment, and other factors may be considered in the investment process.
- The fund may invest in assets directly or achieve exposure indirectly through other eligible means including financial derivative instruments ("**derivatives**"). Such derivatives may include over-the-counter and/or exchange traded instruments such as futures, contracts for difference, equity swaps, options such as puts, calls and warrants, forwards, non-deliverable forwards and currency swaps. The fund may use derivatives with the aim of risk or cost reduction or to generate additional capital or income (including for investment purposes), in line with the risk profile of the fund. However, the fund will not make extensive use of derivatives for investment purposes or use complex derivatives or strategies to meet the investment objectives of the fund.
- The fund will not invest more than 10% of their net asset value in securities issued by or guaranteed by any single country (including its government, a public or local authority of that country) with a credit rating below investment grade.
- The fund will not engage extensively in securities lending, repurchase and reverse repurchase transactions.

What are the key risks?

Investment involves risks. Please refer to the Hong Kong Prospectus for details including the risk factors.

Risk to Capital and Income (Investment Risk)

- The assets of the fund are subject to fluctuations in value. There is no guarantee of repayment of principal and you may not get back the original amount invested. Past performance is no guarantee of future performance.

Equities

- The fund's investment in equities securities may fluctuate, sometimes dramatically, in response to the activities and results of individual companies or because of general market and economic conditions or other events including changes in investment sentiment, political and economic conditions and issuer-specific factors.

Valuation Risk

- Valuation of the fund's investments may involve uncertainties and judgmental determinations. If such valuation turns out to be incorrect, this may affect the net asset value calculation of the fund.

Income-producing securities

- Although the fund will generally invest in income-producing securities, it is not guaranteed that all underlying investments will generate income. To the extent that underlying investments of the fund are income producing, higher yields generally mean that there will be reduced potential for capital appreciation for equity securities.

Eurozone Risk

- In light of ongoing concerns on the sovereign debt risk of certain countries within the Eurozone, the fund's investments in the region may be subject to higher volatility, liquidity, currency and default risks. Any adverse events, such as credit downgrade of a sovereign or exit of EU members from the Eurozone, may have a negative impact on the value of the fund.

Foreign Currency Risk

- The fund’s assets may be denominated in currencies other than the base currency of the fund. Also, a class of shares may be designated in a currency other than the base currency of the fund. Fluctuations in the exchange rates between these currencies and the base currency as well as changes in exchange rate controls may adversely affect the fund’s net asset value.

Risks associated with distribution out of/effectively out of the fund’s capital

- Payment of dividends out of capital and/or effectively out of capital amounts to a return or withdrawal of part of an investor’s original investment or from any capital gains attributable to that original investment. Any such distributions may result in an immediate reduction of the NAV per share/unit.
- The distribution amount and net asset value of the hedged share class may be adversely affected by differences in the interest rates of the reference currency of the hedged share class and the fund’s base currency, resulting in an increase in the amount of distribution that is paid out of capital and hence a greater erosion of capital than other non-hedged share classes.

Financial Derivative Instruments

- Although the fund will not make extensive use of derivatives for investment purposes or use complex derivatives or strategies to meet the investment objectives of the fund, the use of derivatives may give rise to liquidity risk, counterparty credit risk, volatility risk, valuations risks and over-the-counter transaction risk at times. The leverage element/component of a derivative can result in a loss significantly greater than the amount invested in the financial derivative instruments by the fund. Exposure to financial derivative instruments may lead to a high risk of significant loss by the fund.

How has the fund performed?

- Past performance information is not indicative of future performance. Investors may not get back the full amount invested.
- The computation basis of the performance is based on the calendar year end, NAV-to-NAV, with dividend reinvested.
- These figures show by how much the Class A-MINCOME(G)-USD increased or decreased in value during the calendar year being shown. Performance data has been calculated in USD including ongoing charges and excluding any subscription fees and redemption fees you might have to pay.
- When no past performance is shown there was insufficient data available in that year to provide performance.
- Fund launch date: 2012
- Class A-MINCOME(G)-USD launch date: 2012
- Class A- MINCOME(G)-USD is selected as the most appropriate representative share class as it has the longest track record and is denominated in the fund’s reference currency.

Is there any guarantee?

This fund does not have any guarantees. You may not get back the full amount of money you invested.

What are the fees and charges?

Charges which may be payable by you

You have to pay the following fees when dealing in shares of the fund:

Subscription Fee	Class A - Up to 5.25% of NAV Class Y - 0%
Switching Fee	Generally up to 1% of NAV, except if you are switching from one class with no subscription fee into a class with subscription fee, you will have to pay for a switching fee of up to the full subscription fee of the class to be switched
Redemption Fee	N/A

Ongoing fees payable by the fund

The following expenses will have to be paid out of the fund. They affect you because they reduce the return you get on your investments:

Management Fee*	Class A - Up to 1.50% p.a. of NAV Class Y - Up to 0.80% p.a. of NAV
Depository Fee	Varies from 0.003% to 0.35% of NAV
Performance Fee	N/A
Administration Fee	Up to 0.35% of NAV

* The management fee can be increased to a maximum annual rate of 2% of the net asset value of the fund. In the event of such increase, not less than 3 months' notice will be given to you.

Other Fees

You may have to pay other fees when dealing in shares of the fund. Any other fees and charges are described in the Hong Kong Prospectus. You should note that some fees may be increased, up to a specified permitted maximum, by giving shareholders at least one month's prior notice. For details, please refer to the Hong Kong Prospectus.

Additional Information

- You generally buy, redeem or switch shares at the fund's next-determined net asset value after we receive your request, directly or via a distributor, in good order at or before 5.00 p.m. Hong Kong time, being the fund's dealing cut-off time. Before placing your orders, please check with your distributor for the distributor's internal dealing cut-off time (which may be earlier than the fund's dealing cut-off time).
- The net asset value of this fund is calculated and the price of shares is published each business day. Net asset value of the fund will be published in the South China Morning Post and the Hong Kong Economic Times.
- Investors may also obtain the past performance information of the fund's representative share class and (if applicable) other share classes offered to Hong Kong investors from www.fidelity.com.hk.*
- The composition of dividend paid out of net distributable income and capital for the last 12 months are available from the Hong Kong Representative on request and also on the fund's website: https://www.fidelity.com.hk/static/pdf/investor/personal-investment/docs/fund_distribution_payment_composition.pdf.*
- Investors may obtain information on the intermediaries from the Fidelity Investor Hotline: +852 2629 2629.
