Schroder International Selection Fund

The Company

Schroder International Selection Fund (the "Company") organised as a "société anonyme" is an open-ended 'umbrella' company incorporated under Luxembourg law, which enables investors to choose from 'Sub-Funds' (specific portfolios of assets and liabilities within the Company having their own net asset value and represented by a separate class or classes of shares) offering different investment objectives. The shares of each Sub-Fund are listed on the Luxembourg Stock Exchange. Prices are also available on Bloomberg and Reuters.

This report covers the period from 1 January 2019 to 30 June 2019. The financial statements are prepared in accordance with Luxembourg regulations relating to undertakings for collective investment. The last day on which prices were calculated was 28 June 2019, the last working day of the period and 27 June 2019 for Schroder ISF Japan DGF. At the date of this report, 125 Sub-Funds were available for investment. Please refer to the current prospectus for the investment objectives of the Sub-Funds as well as details of investment restrictions. The monthly factsheets for each Sub-Fund can be obtained from the Company's registered office and are also available on the website of Schroder Investment Management (Europe) S.A. (<http://www.schroders.lu>).

Hereafter, names of the Funds will be preceded by "Schroder ISF", e.g. Schroder ISF Global Equity Alpha.

Schroders is a FATCA compliant organisation. The FATCA classification of this entity and its GIIN is as follows: FATCA entity classification: FFI; Sponsoring entity: Schroder Investment Management (Europe) S.A.; Sponsoring entity GIIN: 4RIMT7.00000.SP.442

As at 21 March 2019, all UCITS fund ranges are fully registered in the UK. As required by the Financial Conduct Authority (FCA), Schroders entered into Temporary Permissions Regime (TPR).

This regime will allow Schroders funds to be distributed and marketed in the UK/ to UK investors after Brexit.

Corporate Governance

The Company is subject to corporate governance based on:

1. Its obligations as defined by the UCITS Directive 2009/65/EC dated 13 July 2009, as implemented in Luxembourg law which is available for inspection at the registered office of the Company at 5, rue Höhenhof, 1736 Senningerberg, Grand Duchy of Luxembourg.

2. Its articles of incorporation which are available for inspection at the registered office of the Company and at the Luxembourg corporate and trade register, Registre de Commerce et des Sociétés ("RCSL").
3. Its obligations in respect of the management of the Company, for which the Company has appointed Schroder Investment Management (Europe) S.A. (the "Management Company"), which is subject to the requirements of the Management Company Directive 2010/43/EC, as implemented in Luxembourg law.
4. The Association of the Luxembourg Fund Industry ("ALFI") code of conduct, the principles of which the Company has voluntarily adopted.

Internal Control and Risk Management Systems

The Board of Directors is responsible for establishing and maintaining adequate internal control and risk management systems of the Company in relation to the financial reporting process. Such systems are designed to manage rather than eliminate the risk of error or fraud in achieving the Company's financial reporting objectives and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Board of Directors has contracted with the Management Company to put procedures in place to ensure all relevant accounting records are properly maintained and are readily available, including the production of annual and semi-annual reports. The annual and semi-annual reports of the Company are required to be approved by the Board of Directors of the Company and filed with the Commission de Surveillance du Secteur Financier ("CSSF") and, in the case of annual reports, with the RCSL.

The annual statutory financial statements are required to be audited by independent auditors who report to the Board of Directors on their findings.

The Board meets at least four times a year and ensures that the Company maintains high standards of integrity and control in its operations and that it possesses adequate governance and means of control as law and regulation demand.

Investment Managers' Report

Economic review

The start of 2019 was dominated by worries over slowing global economic growth. However, the Federal Reserve (Fed) responded quickly to such fears in January, confirming that it would adjust its plans for interest rate increases to compensate for deteriorating economic momentum in the US. This set the tone for the rest of the period; investor concerns that the Fed could “over-tighten” policy by raising rates too fast soon switched to expectations that the next move would be a cut.

The US-China trade war remained another area of focus over the six months. The trade war escalated in May after the US raised tariffs on US\$200 billion worth of Chinese imports and added Chinese telecommunications group Huawei to a trade blacklist. China countered with retaliatory tariffs on US goods. Both countries subsequently agreed to a truce and a meeting between Presidents Trump and Xi at the end of June raised hopes of progress. Also in May, the US threatened tariffs on imports from Mexico but these did not take effect.

Against this backdrop, US economic growth was more resilient than many expected. Q1 GDP growth was 3.1% quarter-on-quarter (q/q) annualised, much stronger than estimates of 2.3%. The labour market remained robust too, with data in June showing outsized gains in employment, after a weaker-than-expected jobs report in May.

In Europe, GDP grew by 0.4% quarter-on-quarter in Q1 and Germany did not enter recession, as some investors had feared. Forward-looking data continued to point to weakness, especially in manufacturing sectors. European Central Bank President Mario Draghi hinted that further monetary policy easing, such as new bond purchases, could be on the way if the eurozone inflation outlook fails to improve.

Brexit remained the dominant topic in the UK. The original 31 March deadline to leave the EU was postponed, first for two weeks and then until 31 October. Initially, this development fuelled hopes that a disorderly exit from the EU could be avoided. However, Theresa May resigned as leader of the Conservative Party and therefore as UK prime minister. The Conservative Party began the process of selecting its new leader, who will also become prime minister, and uncertainty grew as to the path a new PM might take.

The US-China trade tensions were an important focus for Japan as an export-oriented economy. The direct bilateral trade talks between the US and Japan took a backseat, with substantive announcements delayed until later in the year. Economic data was mixed, with the largest positive surprise seen in Japan's growth rate for Q1. This showed real GDP grew at an annualised rate of 2.1% whereas consensus expectations had called for a decline.

Slowing growth in China was a focus for emerging markets (EM), as well as the ebb and flow of trade war rhetoric. The Chinese government lowered its full-year growth target to 6-6.5% and outlined higher public spending and tax cuts. In India, Prime Minister Modi's Bharatiya Janata Party was re-elected with a stronger mandate. The Indian central bank cut its benchmark interest rate twice to spur growth. In Brazil, GDP growth slowed sharply in Q1 amid slowing investment and uncertainty around much-needed pension reforms.

Elsewhere in EM, Turkey and Argentina experienced significant currency volatility during the period as both countries' central banks struggled to keep inflation contained.

Equity market review

Global equities, as represented by the MSCI World index, returned 17.0% (in US dollars) over the period. Despite the trade wars and worries over global growth, stock market investors took encouragement from the US central bank changing tack on its plans for interest rate rises. Investors still generally favoured growth stocks (i.e. those offering revenue and earnings growth) over value stocks (which are deemed undervalued relative to their fundamentals). On a sector basis, information technology sector led the gains while healthcare was the main laggard.

On a regional basis, US equity markets continued lead the way. The S&P 500 index returned 18.5% and reached new record highs. The eurozone was not far behind with the MSCI EMU returning 16.4% (in euros). By contrast, the UK's FTSE All-Share saw a 13% return as Brexit uncertainty capped its advance. Japan was the weakest of the major developed markets with a 5.2% return for the Topix in yen terms. The heightened worries over growth and trade saw investors reach for safe havens such as the yen, but a stronger yen is detrimental for Japanese exporters.

Emerging market shares lagged their developed counterparts. The MSCI EM index returned 10.6%. Russia was among the top performers, as were Greece and Argentina. The latter was promoted into the emerging market index from the frontier index during the period. Chinese shares managed to outperform the benchmark but other trade and technology oriented markets such as South Korea and Taiwan underperformed.

Source for all equity market data is Thomson Reuters DataStream.

Bond market review

Conditions in the first half of 2019 were decidedly supportive for bond markets. The unexpected, but decisively dovish “pivot” from the Fed early in the year set the tone. In the following months investors grew in their conviction that central banks would remain highly accommodating.

Government bond yields fell markedly across the globe (i.e. prices rose). The US 10-year yield declined by 67 basis points (bps) to finish the period at 2.01%. On more than one occasion the difference between three-month and 10-year Treasuries fell below zero, an indication of investors' negative view of the economic outlook. The two-year Treasury yield fell 74bps to 1.75%.

In Europe, 10-year Bund yields returned to negative (below zero) territory falling by 57bps to -0.33%. The French 10-year yield fell below zero for the first time with a decline of 72bps to -0.01%. Italian yields were calmer, with the 10-year falling 64bps to 2.10%. Spain's government bonds performed

Investment Managers' Report (cont)

particularly well, dropping by just over 100bps to finish at 0.40%. Italy and Spain are seen as primary beneficiaries of any further policy support from the ECB. Spain's general election in April saw the incumbent party returned to power, thereby reducing political risk.

The UK was dominated by the uncertainty around Brexit. The 10-year gilt yield was 45bps lower at 0.83%. It sold off in April on the announcement of an extension to the Brexit deadline.

Corporate bonds performed strongly, led by high yield (HY), which rebounded strongly in the first quarter, reversing the decline seen in the final months of 2018. The ICE BAML Global High Yield index returned 9.6% as the aggregate spread fell by 122bps. The Global Corporate index produced a total return of 8.1% as the aggregate spread on the index narrowed by 36bps. Investment grade (IG) corporate bonds performed better than HY in the second quarter as more interest rate-sensitive assets outperformed. In IG, media and telecoms performed well, particularly longer-dated bonds, while in HY, financial services, consumer goods and insurance stood out.

Source for government bond market data is Bloomberg. Source for corporate bonds is ICE BofAML.

Outlook

Schroders economists forecast 2019 global GDP growth at 2.8% but see 2020 growth slowing to 2.6%. Rising geopolitical risks and trade tensions look set to hurt business confidence and reduce capital expenditure, thereby weighing on global activity. For inflation, the team has increased its forecasts in all regions. This is largely due to the oil price. The US inflation forecast has also been revised higher, to account for the higher tariffs on goods from China. Global inflation is forecast at 2.6% for 2019 and 2.7% in 2020.

With global activity softening, central banks will look to support growth through looser monetary policy. Schroders economists forecast the Fed to start cutting interest rates in 2019, with rates likely to end the year at 2.0%, falling to 1.5% by the end of 2020. The Bank of England is expected to leave interest rates at 0.75% for the rest of the year before tightening once in 2020. Both the European Central Bank and the Bank of Japan are expected to keep monetary policy on hold in both 2019 and 2020. In China, further stimulus looks likely, via a lower ratio for the reserves that banks are required to hold.

Notes to the Financial Statements as at 30 June 2019

The Company

The Company was incorporated in Luxembourg on 5 December 1968 as a 'société anonyme'. Pursuant to an Extraordinary General Meeting of Shareholders held on 31 January 1989, the form and name of the Company, as well as its establishment period, was changed to a 'société d'investissement à capital variable' ('SICAV') established for an unlimited period under the name of Schroder International Selection Fund. The company qualifies as an undertaking for collective investment (UCI) regulated by the provisions of Part I of the Luxembourg Law of 17 December 2010, as amended, regarding undertaking for collective investment (the '2010 law').

Classes of Shares

At the date of this report, twenty six classes of shares are available within the Funds: A, A1, AX, B, C, CN, CX, D, E, F, I, IA, IB, IC, IE, IZ, J, K1, R, S, U, X, X1, X2, Y and Z shares.

All Funds offer A, B and C shares, apart from the following Funds:

Schroder ISF Asia Pacific ex-Japan Equity (offers only A, C, I & IZ);
Schroder ISF Asian Long Term Value* (offers only A, C, I & IZ);
Schroder ISF China A (offers only A, C, E & I);
Schroder ISF Emerging Markets Equity Alpha (offers only A, C, E & I);
Schroder ISF European Alpha Focus (offers only A, C, E, I, S & Z);
Schroder ISF European Sustainable Equity (offers only A, C, I & IZ);
Schroder ISF Global Disruption (offers only A, C, E, I & IZ);
Schroder ISF Global Gold (offers only A, A1, C, I, S & U);
Schroder ISF Global Multi-Factor Equity (offers only C, I & IZ);
Schroder ISF Global Sustainable Growth (offers only A, C, S & Z);
Schroder ISF Indian Opportunities (offers only A, A1, C, E & I);
Schroder ISF Japanese Opportunities (offers only A, A1, C & I);
Schroder ISF Sustainable Multi-Factor Equity (offers only C, I & IZ);
Schroder ISF UK Alpha Income (offers only A, C & S);
Schroder ISF QEP Global Blend (offers only A, C, I & S);
Schroder ISF QEP Global Core (offers only C, I, IA, X & X1);
Schroder ISF QEP Global Emerging Markets (offers only A, A1, C, I, IZ, K1 & Z);
Schroder ISF QEP Global ESG (offers only A, C, I, IZ & S);
Schroder ISF QEP Global ESG ex Fossil Fuels (offers only A, C, I, IE & IZ);
Schroder ISF QEP Global Value Plus (offers only A, C, I & IZ);
Schroder ISF Alternative Risk Premia (offers only C & I);
Schroder ISF Flexible Retirement (offers only A, A1, C & I);
Schroder ISF Global Target Return (offers only A, A1, C, I, IZ & U);
Schroder ISF Japan DGF (offers only C, I & X);
Schroder ISF Strategic Beta (offers only A, C & I);
Schroder ISF Multi-Manager Diversity (offers only A, C & S);
Schroder ISF Hong Kong Dollar Bond (offers only A, A1, C & I);
Schroder ISF Asian Credit Opportunities (offers only A, C & I);

Schroder ISF China Local Currency Bond* (offers only A, C, E & I);
Schroder ISF Dynamic Indian Income Bond (offers only A, C & I);
Schroder ISF Global Conservative Convertible Bond (offers only A, C, E, I & IZ);
Schroder ISF Global Credit Value (offers only C, E & I);
Schroder ISF Global Sustainable Convertible Bond (offers only A, C, E, I & IZ);
Schroder ISF Securitised Credit (offers only A, A1, C, E, I & IZ);

Shares are generally issued as Accumulation shares. Distribution shares may be issued within any Fund at the Directors' discretion. A list of available Distribution shares may be obtained upon request at the Management Company.

In accordance with the provisions of the current prospectus, the Directors may also offer classes in multiple currency denominations. The respective Investment Managers have the ability to hedge the shares of such classes in relation to the Fund currency or in relation to currencies in which the relevant Fund's underlying assets are denominated. Where hedging of this kind is undertaken, the respective Investment Managers may engage, for the exclusive account of such share class, in currency forwards, currency futures, currency option transactions and swaps in order to preserve the value of the reference currency against the Fund currency. Where undertaken, the effects of this hedging will be reflected in the Net Asset Value and, therefore, in the performance of such additional share class. Similarly, any expenses arising from such hedging transactions will be borne by the class in relation to which they have been incurred. The classes of share available for each Fund are set out in detail in the current prospectus. The Directors may decide from time to time for some or all of the Bond Funds to issue duration hedged share classes. Duration hedged share classes utilise hedging strategies that seek to reduce the share class' sensitivity to changes in interest rate movements. There is no assurance that these hedging strategies will be successful. Where undertaken, the effects of this hedging will be reflected in the Net Asset Value and, therefore, in the performance of the share class. Similarly, any expenses arising from such hedging transactions will be borne by the duration hedged share class. The performance of the duration hedged share classes may underperform other share classes in the Bond Funds depending on interest rate movements. Duration hedged share classes can be issued in relation to any type of available share classes of Bond Funds.

The naming convention used for the share classes is as follows:

A Acc for base currency share class;
A Acc 'CCY' for a multicurrency share class;
A Acc 'CCY' Hedged for a hedged share class.

* Please refer to the Directors' Report for the details of all corporate actions that occurred during the period under review.

X Shares	<p>The minimum initial subscription and holding amount is EUR 25,000,000 or their near equivalent in any other freely convertible currency. The minimum additional subscription amount is EUR 12,500,000 or their near equivalent in any other freely convertible currency.**</p> <p>X shares will only be available, with prior agreement of the Management Company, to institutional investors, as may be defined from time to time by the guidelines or recommendations issued by the Luxembourg supervisory authority.</p>
X1 and X2 Shares	<p>The minimum initial subscription and holding amount is EUR 22,500,000 or their near equivalent in any other freely convertible currency. The minimum additional subscription amount is EUR 12,500,000 or their near equivalent in any other freely convertible currency.**</p> <p>X1 and X2 shares will only be available, with prior agreement of the Management Company, to institutional investors, as may be defined from time to time by the guidelines or recommendations issued by the Luxembourg supervisory authority.</p>
K1, R and S Shares	There are no minimum subscription or holding amounts.

** These minima may be waived from time to time at the discretion of the Directors.

Further details on specific features of the different classes of shares and the conditions under which initial and distribution fees are calculated can be found in the current prospectus.

Net Asset Value

Calculation of Net Asset Value per Share

The Net Asset Value per share of each class is calculated on each Dealing Day in the currency of the relevant class. It is calculated by dividing the Net Asset Value attributable to each class, being the proportionate value of its assets less its liabilities, by the number of shares of such class then in issue. The resulting sum is rounded to the nearest four decimal places*. Further details on rules that apply in valuing total assets can be found in the current prospectus.

Valuation of the Assets of the Company

The value of securities, financial derivative instruments and assets is determined on the basis of the last available price on the stock exchange or any other regulated market on which those securities or assets are traded or admitted for trading. Where such securities or other assets are quoted or dealt in on more than one stock exchange or any other regulated market, the Directors shall make regulations for the order of priority in which stock exchanges or other regulated markets shall be used for the provision of prices of securities or other assets.

If a security is not traded on or admitted to any official stock exchange or any other regulated market or, in the case of securities so traded or admitted, the last available price does not reflect their true value, the Directors are required to proceed on the basis of their expected sales price, which shall be valued with prudence and in good faith.

Liquid assets and money market instruments are usually valued on an amortised cost basis.

Financial derivative instruments, which are not listed on any official stock exchange or any other regulated market, are valued in accordance with market practice. The swaps are valued at their fair value based on the underlying securities (at close of business or intraday) as well as on the characteristics of the underlying commitments.

Units or shares in undertakings for collective investments are valued on the basis of their last available net asset value.

The value of any cash in hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid and not yet received shall be deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof shall be arrived at after making such discount as the Company may consider appropriate in such case to reflect the true value thereof.

Any assets or liabilities in currencies other than the base currencies of the Sub-Funds will be converted using the relevant spot rate quoted by a bank or other responsible financial institution.

If any of the aforesaid valuation principles do not reflect the valuation method commonly used in specific markets or if any such valuation principles do not seem accurate for the purpose of determining the value of the Company's assets, the Directors may fix different valuation principles in good faith and in accordance with generally accepted valuation principles and procedures.

The Directors are authorised to apply other appropriate valuation principles for the assets of the Sub-Funds and/or the assets of a given class if the aforesaid valuation methods appear impossible or inappropriate due to extraordinary circumstances or events.

Fair Value Pricing

In accordance with the provisions of the current prospectus, fair value pricing may be implemented to protect the interests of the Company's shareholders against market timing practices. Accordingly, if a Fund is primarily invested in markets that are closed for business at the time the Fund is valued, the Directors may, during periods of market volatility and by derogation from the provisions above under 'Calculation of Net Asset Value per share', cause the Fund Administrator to allow for the Net Asset Value per share to be adjusted to reflect more accurately the fair value of the Fund's investments at the point of valuation.

The level of adjustment is based upon the movement in a chosen surrogate up until the point of valuation, provided that such movement exceeds the threshold as determined by

the Directors for the relevant Fund. The surrogate will usually be in the form of a futures index but might also be a basket of securities, which the Directors believe is strongly correlated to and representative of the performance of the Fund. Where an adjustment is made as per the foregoing, it is applied consistently to all classes of shares in the same Fund.

During the period under review, fair value pricing was applied to 14 Sub-Funds. The Directors, however, reserve the right to extend the implementation of fair value pricing in respect of other Sub-Funds whenever they deem it appropriate.

The Sub-Funds in relation to which fair value pricing was applied during the period under review as well as details of the relevant reference indices, thresholds and surrogates are shown in the following table:

* Please refer to the Directors' Report for details of all corporate actions that occurred during the period under review.

Swing Pricing Adjustment

A Fund may suffer dilution of the Net Asset Value per Share due to investors buying or selling Shares in a Fund at a price that does not reflect the dealing and other costs that arise when security trades are undertaken by the Investment Manager to accommodate cash inflows or outflows. In order to counter this impact, a Swing Pricing mechanism may be adopted to protect the interests of Shareholders of the Fund. If on any Valuation Date, the aggregate net transactions in Shares of a Fund exceed a pre-determined threshold, as determined and reviewed for each Fund on a quarterly basis by the Management Company, the Net Asset Value per Share may be adjusted upwards or downwards to reflect net inflows and net outflows respectively.

* Please refer to the Directors' Report for details of all corporate actions that occurred during the period under review.

Notes to the Financial Statements as at 30 June 2019 (cont)

Swing Pricing Adjustment (cont)

The net inflows and net outflows is determined by the Management Company based on the latest available information at the time of calculation of the Net Asset Value per Share. The Swing Pricing mechanism may be applied across all Sub-Funds. The extent of the price adjustment will be set by the Management Company to reflect dealing and other costs. Such adjustment may vary from Fund to Fund and will not exceed 2% of the original Net Asset Value per Share.

The swing pricing mechanism has been applied to the Company's Sub-Funds since 12 January 2009.

On 28 June 2019, the last working day of the period under review, swing pricing adjustment was applied to Schroder ISF Italian Equity, Schroder ISF Global Cities Real Estate, Schroder ISF Global Climate Change Equity, Schroder ISF Global Recovery, Schroder ISF European Alpha Absolute Return and Schroder ISF Securitised Credit. The official Net Asset Values per share of these Sub-Funds following the application of the swing pricing adjustment are shown in the following table. All other financial information stated in this report is shown before any adjustments for swing pricing.

Notes to the Financial Statements as at 30 June 2019 (cont)

Taxation

The Company is not subject to any taxes in Luxembourg on income or capital gains. The only tax to which the Company in Luxembourg is subject is the 'taxe d'abonnement' to a rate of 0.05% per annum based on the net asset value of each Fund at the end of the relevant quarter, calculated and paid quarterly. In respect of any Share Class or Fund which comprises only institutional Investors (within the meaning of Article 174 of the Law), the tax levied will be at the rate of 0.01% per annum.

Changes in the Funds

A list specifying the total purchases and sales for each Fund, which took place during the period under review, may be obtained free of charge upon request at the Company's registered office.

Disclosure of Transaction Costs

The transaction costs are broker commission fees and taxes related to the purchase and sale of transferable securities. The transaction costs are shown net of the corresponding elements of the swing pricing factors that were applied when net flows in a Fund exceeded 1% on any business day during the period under review. Custodian transaction costs are not included in this table, please refer to the 'Custodian Fees'

The transactions costs for the period under review are as follows:

Transactions made for a Purpose other than Hedging

In accordance with the provisions of the current prospectus, the Company may, for a purpose other than hedging, purchase and sell futures contracts, forward foreign exchange contracts, financial derivative instruments that are traded OTC including, without limitation, total return swaps, contracts for difference or other financial derivative instruments with similar characteristics and equity swaps provided that the Company will only enter into equity swap transactions with highly rated financial institutions specialised in this type of transactions.

shown in the Combined Statement of Operations and Change in Net Assets. Bond Sub-Funds will generally show the figure of zero as the broker commission fees are included in the spread, which is excluded from the calculation pursuant to Annex I, Schedule B, Chapter V of Directive 2009/65/EC of the European Parliament.

Investing in Russian securities

Those Sub-Funds with an investment objective that allows investment in Russian securities may invest directly in Russian securities that are traded on the Moscow Exchange. Securities traded on the Russian Trading Stock Exchange can be treated as investments in securities dealt in on a Regulated Market.

Investment Restriction

To ensure eligibility for the French Plan d'Epargne en Actions (PEA), Schroder ISF EURO Equity, Schroder ISF European Dividend Maximiser, Schroder ISF European Alpha Focus, Schroder ISF European Large Cap, Schroder ISF UK Equity and Schroder ISF UK Opportunities will invest at least 75% of their assets in equity securities issued by companies which have their head office in the European Union, or in an EEA state that has signed a tax agreement with France, including a clause on combating fraud and tax avoidance.

Information for Residents of the Hong Kong SAR

Soft Commission Arrangements

Pursuant to the requirements of the Hong Kong Securities and Futures Commission regulations, the following statement is made:

Soft commission arrangements have been undertaken in respect of the Company. Services which are paid for through or by soft commission were in majority limited to the following areas:

- research, analysis or price information including computer or other information facilities;
- portfolio valuations;
- performance measurement.

Transactions with Connected Persons

The Company has entered into agreements and arrangements with Schroder Investment Management Limited and its affiliates, under which a management fee, performance fee

and a transfer agency fee are payable. These agreements and arrangements have been entered into in the ordinary course of business and on normal commercial terms. The details of the management fees and performance fees are set out in the Notes to the Financial Statements.

In addition, the Management Company is entitled to receive the customary charges for its services as administration agent, coordinator, domiciliary agent, global distributor, principal paying agent and registrar and transfer agent. These fees accrue daily at an annual rate of up to 0.25% by reference to the Net Asset Value of the relevant Fund and are paid monthly in arrears.

Further details on fees payable by the Company can be found in the current prospectus. No transactions of the Company were effected through a broker who is a connected person of the Management Company, the Investment Adviser, or the Directors of the Company.

Expense Subsidy

The administration fees, custodian fees, distribution fees, management fees and statutory fees are calculated and accrued daily by reference to the Net Asset Value of the Sub-Funds and are paid monthly. These fees were monitored to ensure the total expenses incurred were not deemed to be significant relative to the Net Asset Value of the Sub-Funds (above threshold agreed by the Board of Directors).

The following table shows the share classes whose TER was above the designated CAP as at 30 June 2019.

Directors' Fees

For the period from 1 January 2019 until 30 June 2019, Eric Bertrand, Marie-Jeanne Chevrement-Lorenzini and Bernard Herman each received in remuneration the amount of EUR 27,083 and Daniel de Fernando Garcia received in remuneration the amount of EUR 25,000.

The remaining directors have waived their remuneration.

Management Fees

The Investment Managers are entitled to receive management fees for their services, which are calculated and accrued daily by reference to the Net Asset Value of the Sub-funds and are paid monthly. No management fees are payable out of the net assets for I and J share classes, however the Investors are charged directly by Schroders. The actual rates payable as at 30 June 2019, which vary from Fund to Fund and from share class to share class are set out in the following tables. Please refer to the Director's report for changes to the management fees that occurred during the period under review:

Performance Fees

In accordance with the provisions of the current prospectus, performance fees terms were applied to 9 Sub-Funds. Accordingly, the Investment Managers of the relevant Sub-Funds are entitled to receive from the Sub-Funds a performance fee, in addition to management fee, provided that the increase in the Net Asset Value per share of the Sub-Funds over the calendar year outperforms their relevant benchmarks over the same period, in accordance with the high water mark principle, i.e. by reference to the Net Asset Value per Share at the end of any previous performance period (the High Water Mark). The performance period shall normally be each financial year except that where the Net Asset Value per Share as at the end of the financial year is lower than the High Water Mark, the performance period will commence on the date of the High Water Mark.

If a performance fee is introduced on a Fund during a financial year, then its first performance period will commence on the date on which such fee is introduced. The performance fee is 15% of the outperformance (except for Schroder ISF European Alpha Focus, Schroder ISF QEP Global Equity Market Neutral**, which is set at 10%, and for Schroder ISF European Alpha Absolute Return, Schroder ISF European Equity Absolute Return and Schroder ISF European Market Neutral which is set at 20%) and is payable annually in January. Further details of the calculation of the performance fees can be found in the current prospectus.

The Sub-Funds in relation to which performance fees were calculated during the period under review as well as details of the relevant Investment Managers and benchmarks are set out in the following table.

Sub-Fund	Investment Manager	Benchmark
Schroder ISF European Alpha Absolute Return	Schroder Investment Management Limited	3 Month EUR London Interbank Offer Rate Act 360
Schroder ISF European Alpha Focus	Schroder Investment Management Limited	MSCI Europe Net TR
Schroder ISF European Equity Absolute Return	Schroder Investment Management Limited	3 Month EUR London Interbank Offer Rate Act 360
Schroder ISF European Market Neutral	Schroder Investment Management Limited	3 Month EUR London Interbank Offer Rate Act 360
Schroder ISF European Special Situations	Schroder Investment Management Limited	MSCI Europe Net TR
Schroder ISF European Value	Schroder Investment Management Limited	MSCI Europe Net TR
Schroder ISF Frontier Markets Equity	Schroder Investment Management Limited	MSCI Frontier Markets Net TR
Schroder ISF QEP Global Core	Schroder Investment Management Limited	MSCI World Net TR
Schroder ISF QEP Global Equity Market Neutral	Schroder Investment Management Limited	BBA Libor USD 3 Month Act 360
Schroder ISF Swiss Equity Opportunities	Schroder Investment Management (Switzerland) AG	Swiss Exchange Swiss Performance Index

* For the multi-currency, hedged and duration hedged classes, the rate of the management fees is the same as the rate applicable to the base currency equivalent classes.

Notes to the Financial Statements as at 30 June 2019 (cont)

Financial Futures Contracts

Futures contracts were valued at the last available price on 28 June 2019. The counterparty for all outstanding future contracts was UBS. The unrealised gain/(loss) is shown in

the Combined Statement of Net Assets under 'Unrealised gain/(loss) on financial futures contracts'. As at 30 June 2019, the following Sub-Funds held open futures contracts:

Security Description	Number of Contracts	Currency	Unrealised Gain/(Loss) USD	% of Net Assets

Cash Collateral Reinvestment

For the purpose of counterparty risk mitigation, Sub-funds with currency hedging transactions related to hedged share classes will pay or receive cash collateral on a daily basis from the counterparty, thus reducing their exposure over the duration of the forward contract.

Investment Managers may reinvest the cash collateral they receive from their counterparty in connection with currency hedging.

Forward Currency Exchange Contracts

Outstanding forward foreign exchange contracts were valued at the last available price on 28 June 2019, by reference to the forward rate of exchange applicable to the maturity of the contracts. The unrealised gain/(loss) is shown

in the Combined Statement of Net Assets under 'Unrealised gain/(loss) on forward currency exchange contracts'. As at 30 June 2019, the following Sub-funds were committed to outstanding forward foreign exchange contracts:

Currency Purchased	Amount Purchased	Currency Sold	Amount Sold	Maturity Date	Counterparty	Unrealised Gain/(Loss) USD	% of Net Assets

Notes to the Financial Statements as at 30 June 2019 (cont)

Inflation Rate Swap Contracts

The Company invests in inflation swaps as part of the investment strategy. Inflation swaps were valued with the last available price on 28 June 2019, at their intrinsic value. The valuation method involves the determination of the net present value of future cash flows at the closing date.

The result of these revaluations together with any interest receivable/payable in relation to inflation swaps is shown in the Combined Statement of Net Assets under Swap contracts at fair value.

As at 30 June 2019, the following Sub-Funds were committed to inflation swaps:

Nominal Amount	Currency	Counterparty	Security Description	Maturity Date	Market Value USD	% of Net Assets
Schroder ISF Strategic Beta						
2,040,000	USD	Morgan Stanley	Pay fixed 1.85% Receive floating USCPI 1 month	18-Jun-2029	16,593	0.05

Notes to the Financial Statements as at 30 June 2019 (cont)

Interest Rate Swap Contracts

In order to hedge against interest rate fluctuations, the Company may enter into interest rate swaps provided:

- The commitments deriving there from do not exceed the value of the relevant assets to be hedged; and
- The total amount of such transactions does not exceed the level necessary to cover the risk of the fluctuation of the value of the assets concerned.

Such contracts must be denominated in the currencies in which the assets of such Sub-Fund are denominated, or in

currencies which are likely to fluctuate in a similar manner and must be either listed on an exchange or dealt in on a Regulated Market. Interest rate swaps were valued at the last available price on 28 June 2019 at their intrinsic value. The valuation method involves a current value of each interest rate and capital series converted into the currency of the Sub-Fund on the closing date. The result of these revaluations together with any interest receivable/payable in relation to interest rate swaps on 30 June 2019 is shown in the Combined Statement of Net Assets under Swap contracts at fair value.

As at 30 June 2019, the following Sub-Funds were committed to interest rate swaps:

Nominal Amount	Currency	Counterparty	Security Description	Maturity Date	Market Value USD	% of Net Assets

Total Return Swap

The Company may use total return swaps. A total return swap is a bilateral financial contract which allows the Company to enjoy all of the cash flow benefits of an asset without actually owning this asset (the 'Reference Asset'). The Company will have to pay a periodic fee (fixed or floating payment) in exchange of its right to receive the total return of the Reference Asset (coupons, dividends and capital gains or losses). The Reference Asset can be almost any asset, index or basket of asset which constitutes an eligible investment for the Company. The Company may use such instruments to seek exposure to an eligible market or for hedging purposes.

The Company will only enter into a total return swap transaction with highly rated financial institutions specialised in this type of transaction. In addition, the use of total return swap must comply with the investment objectives and policies and risk profile of the relevant Sub-Fund. The total

commitments arising from the use of total return swaps together with the total commitments arising from the use of other derivative instruments may not, at anytime, exceed the net assets of the relevant Sub-Fund.

The total return swaps were valued at the last available price on 28 June 2019. The unrealised gain or loss on total return swaps at the period end is represented by the values of interests to be received (or paid), based on relevant swap agreements' interest rates less (or plus, respectively), the value of the performance to be paid (or received, respectively), based on the total return value of underlying assets, which is made of the current fair value of the bonds plus the coupon for such debt instruments for the relevant swap period. The unrealised gain/(loss) is shown in the Combined Statement of Net Assets under Swap contracts at fair value.

As at 30 June 2019, the following Sub-Funds were committed to total return swaps:

Commitments

Schroder ISF Global Diversified Growth committed to invest EUR 5,000,000 in Schroder Private Equity Fund of Funds IV Class C (the 'Underlying Fund') in a secondary purchase transaction representing 5,000,000 shares at an initial price of EUR 1.00 per share.

As at 30 June 2019, the Board deem all shares repurchased to date to be fully paid.

The payment of 20% of shareholders' original equity commitments has so far been waived by the Directors of Schroder Private Equity Fund of Funds IV plc, leaving 15% of shareholders' original equity commitments outstanding. The Board reserve their right to call shareholders' outstanding equity commitments at their discretion.

Subsequent Events

On 1 July 2019 the Schroders Investment Management (Europe) S.A. Transfer Agency moved to HSBC Luxembourg.

On 10 July 2019 Schroder ISF Global Energy Transition was launched.

On 17 July 2019 Schroder ISF Global Credit Duration Hedged Class I Acc GBP Hedged was liquidated.

On 31 July 2019 Schroder ISF Healthcare Innovation was launched.

Appendix II – Securities Financing Transactions

The Sub-Funds engage in Securities Financing Transactions (SFT) (as defined in Article 3 of Regulation (EU) 2015/2365, securities financing transactions include repurchase transactions, securities or commodities lending and securities or commodities borrowing, buy-sell back transactions or sell-buy back transactions and margin lending transactions). In accordance with Article 13 of the Regulation, the Sub-Funds' involvement relating to their exposure on total return swaps for the period ended 30 June 2019 is detailed below:

Schroder ISF QEP Global Value Plus

Global Data

Amount of assets engaged in total return swaps

Amount of Assets - Long Positions USD	% of AUM
27,556,162	57.96%
Amount of Assets - Short Positions USD	% of AUM
22,997,843	48.37%
Amount of Assets - Total USD	% of AUM
50,554,005	106.33%

Concentration Data

Ten largest collateral issuers (across all SFT and total return swaps)

As at 30 June 2019, there are no collateral securities and commodities received in respect of total return swaps.

Top ten counterparties

Counterparty	Gross Volume of Outstanding Transactions USD
UBS AG London	39,694,601
HSBC Bank plc	10,859,404

The Sub-Fund only deals with two counterparties for its total return swaps.

Aggregate Transaction Data

Type and quality of collateral

As at 30 June 2019, collateral was received in respect of total return swaps as follows:

Type	Market Value USD
Cash	260,000
	260,000

Maturity tenor of collateral

As at 30 June 2019, collateral was received in respect of total return swaps as follows:

Maturity	Market Value USD
less than 1 day	260,000
1 to 7 days	–
1 to 4 weeks	–
1 to 3 months	–
3 to 12 months	–
more than 1 year	–
open maturity	–
	260,000
